Three to Ride Sophie Oak

[Menage Amour: Erotic Cowboy Menage a Trois Romance, M/F/M, bondage]

Rachel Swift is a woman on the run. Max and Rye Harper are just the men to catch her. A stalker sent Rachel's world reeling. Now she's running for her life, and Bliss, CO, seems like the perfect place to hide. Bliss is a strange little town, filled with artists, nudists, and the occasional conspiracy nut. It's a good place to start over.

Horse trainer Max and Sheriff Rye gave up on their dream of finding one perfect woman to share long ago. Rachel walks in, and they're both in love and fighting their true natures. When Rachel's past catches up with her, all of Bliss is in danger. Can Rachel stand up to the man who took everything? Rachel is done running. It's time for her to get back in the saddle and ride.

Mrs. Missive says

Okay...totally didn't know if I could handle this one. Ms. Oak has presented two delicious twin cowboys for us to fall head over heels for in this book. And these delicious twin cowboys like to share. (My husband is a twin...didn't know if it would be too much of an ick factor for me.)But I got an ARC copy in my hands and wasn't about to not read it, possible ewie factor be damned.

I was pleasantly surprised, as I was introduced to Max and Rye (short for Ryan) and really got to know them as people, falling head over heels for these boys in the process. The two guys decide, for the good of their future families, that they needed to pursue separate relationships. They want to be normal...well as normal as two slightly mind-melded hotties can be living in a hippie founded town, while dealing with the nudists, the mimes, and the alien conspiracy theorists. For me the best way to accept a less than socially accepted situation is to show me how, it could be normal for the characters. And I was totally in love with the town from the first description. When Sheriff Rye broke out the alien technology detector to scan Mel's house to ensure he wasn't in danger of another anal probe....yup....I was cracking up.

Our heroine is running from a psycho stalker. And what better place to run than into the arms of a notorious bastard horse wrangler. But from the start we see that Max, who is known to flip his lid if his burger is not burnt to a crisp, is no match for Rachael...er...Liz...er...whoever she calls herself at the time.

Rye comes back from a two-week hiatus to see his twin head over heels for the new waitress in town. He even ate pickles for her!!! But sorry M/M enthusiasts...it's not those kind of pickles. *snort* These boys share, but no twincest in this novel.

Rachael...the name of her new identity, and who we know her as through most of the book, begins a relationship with Max. Well she screws him in a pond and then decides he's a keeper, at any rate.

We get a lot of..."I don't know if we'll scare her away..."...with a smattering of "I don't want to come between them"...and just a dash of "I can't put people I care about in danger" before all three of our menage finally realize they've been dumbasses and want the same thing.

This book was sexual tension at its best. While we get a little one on one action from our heroine and Max pretty early on, we don't get the money scene starring Rach, Max, and Rye, until after half-way through this tale. And ooooh baby did we get rewarded for our wait.

I love the way Sophie Oak blends a little action, a lot of heat, and a little humor in her books. I found myself bouncing around from squirming at the heat between our trio, feeling scared for our heroine, and laughing at Rye's frequent masturbatory trips to the bathroom. This book was a fun ride and I couldn't put it down.

We get M/F, M/F/M, and some light D/s stuff. But mostly I got to know a great cast of characters, and enjoy the tale of how they all came together in a crazy situation. This is the type of book I love to read, because it's not able to be classified. Was it SuperSmut...well not really...the sex scenes were smokin...but it didn't take up too much of the book. Was it comedy...while it was funny...and had me snorting coffee out my nose at points...there were too many other factors at play. Was it a thriller...well there were definitely some thrilling moments (I want my own guesthouse now)...it was definitely not focused heavily on the non-sexual action. So lets call this one a definite re-read and leave it at that. (especially chapter 13...*fans self*)

Cyn Mistress Kitty says

I LOVED this story. The interaction between the heroine and the twin, yes I said TWIN, hero's was great. There were so many times when I laughed out loud and actually snorted (I don't snort). The love scenes were HOT and there was a villain that was truly evil. The secondary characters were great too and I am going to start reading Callie's story now and hope soon there will be Stephan's story. I wanted this story to go on and on. I live in Colorado now and am ready to move to Bliss, Colorado.

Just did a re-read and fell in love with SO's books again.

Another re-read.

Another re-read with new version.

Faye, la Patata says

Who would've thought that I would one day be reading *and* reviewing an erotica? And an M/F/M erotica, at that?

And who would've thought it would be *A Court of Thorns and Roses* triggering that urge deep inside me? I mean, come on, surely you've noticed the oozing hotness of Tamlin and Rhysand and imagined yourself sandwiched between them? Surely, I'm not the only one thinking of such a thing?!

From hot faeries to sexual cowboy twins with seemingly large, hot, humongous AND throbbing "members"...

WHAT THE HELL HAPPENED, FAYE?!?!?! WHAT HAS POSSESSED YOU?!

Objectively, this book had many things that I normally hate. For one, insta-love. Maxwell and Rye Harper, two twins who are seemingly drop-dead panty-dropping grogeous, meet Rachel Swift. Upon seeing her for the first time, they fall in love with her and try their damn best to get her love and attention. The same goes for Rachel - she sees Max and she can already feel heat forming in the "mound" between her legs; she sees Rye and she wonders what it is like to have his big hands on her thigh.

...which was bad, but not because it was insta-love, but because before meeting them, she had run-ins with a very aggressive and violent stalker, who not only killed her dog but also set her house on fire. **Something like that - and by something, I mean a chain of events that practically force you to assume countless identities to escape that monster - should make any woman fairly paranoid and maybe traumatized, but cue in from stage left the hot d00d and she goes all wet and fantasizes about them.** After their first real conversation (and not just stolen glances), she initiates sex. I really found that weird, unrealistic, and honestly, fast-paced.

But I'm glad that she was far from submissive, which I found to be a recurring theme in the previous eroticas I read before this one (EEP!!!). She doesn't give in to a possessive twin and even gives him a piece of her mind, which, predictably, made her even more "desirable" in the eyes of the wild Maxwell.

One thing that I really liked here, though, was the sex. **THEY WERE HOT**. I've read a lot of NA and recently read some eroticas (ANOTHER EEP!!) and after the first sex scene, the succeeding ones oftentimes become boring and repetitive. But not here - the sex scenes here were really refreshing, amazingly vivid and described that would really make your fingers twitchy with need. Even the M/F/M scene was really

something! **And it's not half-assed either, where it only lasts a couple of pages of fast-paced action and that's it. NOPE. It takes its time, explores, and makes you want it, too.**

YEAH, DON'T GET ANY IDEAS NOW.

All I can say is, if I'm going to read more eroticas, I'm going to make sure I'll finish this author's list of books first. She writes them best so far. Not even 50 Shades of Grey comes close.

Kathleen says

loved it!!! I must say it's not often that I pick up an erotic romance that has a great story, spicy love scenes and quite a few LMAO moments. It was so good, I'm off to read book #2 in this series Two To Love.

Michelle says

ARC provided by author in exchange for an honest review

Three to Ride by Lexi Blake writing as Sophie Oak is one unconventional erotic romance. The title alone will give you a hint that this book is not of the normal romance as it deals with a ménage à trois with twin brothers who share everything and that also means their woman. Since this book was a fast paced book, I won't say much but I will say this book was hot, passionate, and a sexy bliss of love.

Heather C says

I have clearly lost my marbles! Anyone who knows me, knows that I avoid ménage like the plague. But for some reason I was really craving a m/f/m where the men do not touch. So this just worked for me even though the two men were brothers. I still really liked Max more than Rye in the end.

I really liked the ménage plot here; the sex was HOT and I was perfectly ok with the brothers wanting to share Rachel!! There was no jealousy or angst between them once they became a ménage. My only issues were the insta-love and I thought the stalker plot was lame. Overall, it was an enjoyable read.

3.5 Stars

Alex is The Romance Fox says

I really like menage stories and have read some good ones but this was one of those that just did not do it for me!!

The characters irritated me...the hairy nudists, the alien thing, the little town of Bliss and it's occupants, the instant falling in love, which just did not ring true for me....but that's just my opinion.

I know that there are a lot of readers who enjoyed the story but I was not "grabbed"!!

I will probably read the next book in the series and hopefully it will do something more for me.

Lana ❀❀Dirty Girl Romance❀❀ says

4 STARS

This man tore away all her defenses and inhibitions.

A little suspense with a whole lot of sexy makes Three To Ride one titillating read! I first got curious about Lexi's Bliss series when she hinted at it in Nobody Does It Better. As I hadn't yet read this series that she initially released under her Sophie Oak pen name yet, I was instantly intrigued.

Rachel Swift is a heroine that I clicked with right away. This is a woman that's trying everything to escape a dangerously obsessed stalker that has the resources of being a cop behind him. Forced on the run with nothing to her but her few meager belongings, she's about to give up hope when she stumbles into the small town of Bliss, Colorado and instantly falls in love. What she doesn't expect is to fall for a sweet yet brooding man while also harboring feelings for his twin brother and town sheriff.

I absolutely loved the way that Rachel took no sh*t from either man. She was quick to shut down Rye's advances since she was dating his twin, and she was quick to put Max in his place any time he let his unreasonable jealousy get the best of him.

You will treat me like a lady, Maxwell Harper. You will politely ask me questions, and you will not accuse me of anything again unless you're damn sure I've done something to deserve it. You will not walk into my place of business and tell the town I'm some sort of harlot. Is that understood?"

While her relationship with Max starts when he pursues her, it's still a bit of a slow burn. All the while, she's fighting her attraction to his twin, even though rumors in town is that the men like to share everything...and I do mean everything.

The road to the menage is a slow and sizzling burn. It also had the added element of suspense from Rachel's stalker which I enjoyed thoroughly. The pacing was perfect and I really liked how everything wrapped up in the end. I can't wait for more in this deliciously kinky series!

Find me on:

Kate's Corner says

First thoughts after reading.

I expected a lot of smut and not a lot of plot. Colour me surprised. I got both. Lol.

The Characters.

Rachel Swift is on the run after an act of kindness gave her this. She is on the second of her three fake identities. After nearly been caught in San Diego she has landed in Bliss, Colorado. She has the moose's approval. The past year has been hard for Rachel what with living out of her car and with very few belongings to her name. A shell of herself. She needs a break, she gets that and a job on top but is still homeless. Not for long.

Max Harper is the bear of the county maybe also the teddy bear of the county he is set in his ways. He is a grouch, augmentative and contrary. He prefers animals to humans. That is until Rachel.

With Rachel he is a changed man. An astounding change in him. He pays his tickets and everything. Rye Harper is the county sheriff a job he isn't that keen on but sacrifices had to be made to look after his baby sister Brooke. He is the charmer of the two. The reasonable one. The sweet one, the sane and calm one.

I loved Rye and Rachel. Max flew off the handle too much for me. But there were times with his puppy dog eyes and his puppy demeanour you just couldn't be upset with him.

The Chemistry.

Max and Rye want that one woman to call their own but after the Nina debacle they have decided to go solo. Although they did dodge a bullet there. Rachel feels an instant attraction to Max. She is the Max whisperer in Bliss. Max feels that he has found the one but doesn't want to ruin it by sharing with Rye. Rye was instantly attracted to Rachel as well but all she saw was the uniform. But she can't keep her feelings for both brothers hidden for long and she decides to go after what she wants. She wants Rye & Max. Grab a fan ladies cause those were steaming for me personally those three could have got it on sooner. As they share very near to the end. That was the one thing I didn't like.

The Writing, Plot & Bliss, Colorado.

"What do you think she meant when she called this a weird town? Max yawned. "I have no idea. It's a great town it's nice and quiet, except when the Farley boys try to launch those rockets of theirs."

"Don't forget the Wiccans chanting. That can get loud." Woo Woo Fest was coming up in a couple of months. He hated the Woo Woo Fest. "They only do that a couple of times a year. It's the live-action role-playing that I take an exception to," Max said with a frown. "Those kids scare my horses. Other than that, we're perfectly normal."

And I fell in love with Bliss, Colorado.

I just love the author's writing it sucks you in and keeps you hanging on each letter, word and sentence. All the secondary characters are of solid quality and are a riot. Mel who was kidnapped by aliens. Stella who owns the diner. Callie, Jen and Stef. The pace is set well. It is all engaging and entertaining. All loose ends are tied up and I love how the ending was.

The Verdict.

Go Quigley. Read the book it is amazeballs I want the next in the series. It is worth it. Believe me or don't, lol. I had so much fun with Three to Ride. Alex from the Masters & Mercenaries was mentioned but I wanted to meet him.

Shayna says

“Why shouldn't she have this? Why should she deny herself.”

Rachel, Max, and Rye...three wonderful characters that stole my heart years ago, are back in a re-released, second edition of THREE TO RIDE by Lexi Blake writing as Sophie Oak. With a couple of new chapters as well as some additional new content, I was absolutely SMITTEN all over again! If you haven't ventured to Bliss, Colorado, you are FOR SURE missing out on something special. I can't even begin to tell you the feeling of peace and contentment when you finally do experience this world that Lexi Blake has so cleverly created.

I'm definitely no prude, but the gorgeous relationship that blossomed between these three made me blush from head to toe, leaving me in a consistent state of bliss. It has action, adventure, and passion for days! I don't always have time to reread romances, but when I do, you can guarantee it will be a Lexi Blake novel every single time!

Susanne says

I was in the mood for a spicy, fun and easy read and that is exactly what I got!

This is the first book about Bliss, Colorado. A sexual sanctuary, where all kinks are out in the open. I absolutely adored this quirky town and all its crazy inhabitants. I would recommend leaving your sense of reality behind, and dive into the spicy craziness of this series. I will definitely read on! **It will be my go-to "relax my brain with some yummy book candy"-series.**

Add a heroine on the run, two yummy identical twin cowboys looking for a polyamorous relationship, a crazy small town and a murderous stalker and you get this little gem! I absolutely adored Max and Rye. *Fans self* Any woman would be crazy not to be their woman.

Yes, it was insta-lust to love in five minutes. Yes, it was not very realistic. And yes, she should be a bit more traumatized. It is not deep. It is not angsty. It is hot and fun with an super happy HEA. **It isn't a serious book. It is pure adorable hotness, and as such it was the very best!**

Shera (Book Whispers) says

As I'm just getting into the ménage erotica, I'm starting to get the feeling that authors think that only Colorado cowboys like to "share their toys". Maybe they think they're the only kind of guys that are man enough for the task, or they're like me and firmly believe that a man in a good pair of wranglers and can ride a horse is just too sexy to pass up.

Whatever, the case I'm one satisfied reader. The identical twins Alex and Ryan are finger-licking good! Alex has a sour mean boy attitude that hides his big softy side and he's one tender lover. Where easy going Ryan is dominating and demanding in the sack. Over all a heady combination when combined.

What I liked about Oaks ménage is that there is some build—well, as much build as you can get from 240 pages. Rachel Swift is a woman on the run who has been chased down and hunted by a one-time blind date gone wrong. He's fixated on her and wants her dead, after he's done with her of course. She can't trust the cops, because he is one. When she meets Alex she's immediately pulled in. Then Ryan enters the stage and the rumors of how the boys like to share women soon get her curious. However, Alex doesn't want to share.

This book was tons of fun right from the get go, especially with Rachel beating Alex to a pulp with some roses. The guys trying to convince Rachel that she should be with both of them. When all along Rachel is plotting to make them see that she wants them both. This wacky and sexy tale takes place in fictional Bliss Colorado, where strange sexual flavors are OK and the nudists from the nudist colony are always scaring the tourists.

This book is fun in and out of the bedroom giving erotica readers just what they were seeking in an ménage amour title. Maybe due to lack of a decent page count things move on swiftly, like Rachel excepting her two lovers. Either way this is tons of dirty fun! If the sex scenes don't get your blood pumping the game of predator and prey will. As Rachel's psycho wanna-be boyfriend sneaks into town ready to take her and her lovers out. Oak also builds up enough of the supporting cast that you can anticipate sequels—trust me you'll want them.

Sexual Content: Threesomes, sex toys, submissive sex, nudists running amuck, and plenty of dirty talk.

3/5- Adored it, just a few minor details held it back.

Originally posted at Book Whispers.

Eve Recinella (Between The Bookends) says

Oddly enough, I did not enjoy this one upon rereading as much as I did when I first read it AGES ago. This time around I found it frustrating that Rye isn't included in Max's and Rachel's relationship until 80% into the book. I guess nowadays I prefer my menages to start on equal footing and not with two people already dating, having sex, and in love, while the third sits on the outside looking on in sadness <--- slightly dramatic, but that is kind of how it felt for me (shrug).

That said, I still enjoyed the book overall. It was full of humor. It was well written. The plot was engaging. I adore the town of BLISS and all its quirky and intriguing characters. I loved all three main characters (especially Max). The sex scenes were hot. I loved the small mention of Alex. I didn't find it particularly angsty, and there was just a little OW or OM drama. So yea, I enjoyed it, and I am looking forward to rereading the next book. Therefore yours truly is going to give this one two thumbs up.

? BookAddict ✍ La Crimson Femme says

SOPHIE OAK! You evil evil woman. I see how it is, tease me with a free hit and now I'm craving your bloody books like a heroin addict. Good lord woman, what is with these hot sex scenes? I've been hearing Sinful go on and on about Bliss. Who names a town Bliss? Then you fill it with these crazy lunatics. I tell my DH about the people in this town. He looks at me and says, "I bet it was founded by freaking hippies". I get to Founder's Day celebration and find out, the town IS founded by freaking hippies.

Your sense of humour is right up my alley. Sasquatch sighting was hilarious. I chortled at that piece. Political protest in a mime? Who comes up with this crazy shit? I had my DH snorting with amusement in a good way. The sex scenes...ah, the important sex scenes. Wow do I want Rye and Max - just for a ride though. I don't want them forever. This book was hot with the sex scenes and they weren't even heavy BDSM or anything super kinky. Well, if you take into account that menage with twins isn't really too kinky. I guess I'm

corrupted. Then Stephen. I think I'd like to be around him! So of course, I have to buy your two other Bliss books, Be-yotch! I hope you're happy, Ms. Sophie Oak! My DH is now looking at his amazon bill going, WTF? Why are you buying all these books? Are these sex books? My answer, damn straight they are sex books. HOT sex books with a great plot and lovable characters. I recommend this to those who love a good romance and some hot menage.

Auntee says

A feisty young woman on the run from a stalkerish cop/ex-boyfriend lands in a small, quirky Colorado town (Bliss). The town is filled with colorful characters and a liberal attitude. *And* two smokin' hot twin brothers--Max and Rye Harper. Max and Rye own a ranch where cranky Max is a sort of "horse whisperer" and charming Rye is the town sheriff. Max and Rye are looking for the perfect woman to **share** and make their wife without much luck, until they spot the town diner's sexy new waitress. Almost before you can blink an eye, Max has staked his claim (be prepared to suspend disbelief, because the ILY's happen mighty quick). But Rachel wants no part of trusting a man again--Max might be fun as a friend with benefits, but long term? She's afraid to want something like that. And then there's Max's brother Rye--he's a lawman, and Rachel can't bring herself to trust a cop again. But she can't deny her attraction to him too. What's a girl to do when she finds herself yearning to settle down with not one but *two* incredible men...should she keep running from her past or trust the two men who she's grown to love to protect her?

Sheriff Rye...

Max...

This was fast, funny, cute, and plenty steamy! I loved the sexy twins Max and Rye, and Rachel was no slouch either--she took no guff and held her own. There were a few moments where I had to suspend my disbelief -Max knows he's in love with Rachel almost the moment he talks to her- and I couldn't believe that the crazy ex-boyfriend that was after Rachel couldn't be brought to justice, but...it didn't ruin my enjoyment of the story. It was light, fluffy brain candy, and sometimes you need a read like that. For pure entertainment and hotness, easily 4 solid stars. And I'm heading back to Bliss...
