Cyborg Assault Vaughn Heppner

The war expands to the Jupiter System, in this, the fourth book of the series.

As the Mars Campaign ends, stealth-capsules launch from the Neptune System. Months later, they glide into the Confederation of Jovian Moons. Cyborgs emerge to begin phase one among the Homo sapiens.

The Jovians follow the Dictates, a perfected philosophy where the rational rule, the spirited fight and the brutish labor. The moons have wealth, a powerful fleet and hardened Secessionists who want freedom from the Dictates.

Marten reaches the Jupiter System as phase one of the cyborg campaign nears its completion. Believing himself safe, Marten enters the harshest battle of his life, with mankind's fate resting on his choices.

CYBORG ASSAULT is the story of desperate space marines, meteor-ships and ruthless creatures of symbiotic machine-flesh.

Another great read in this series. I love the way the character theads pop in and out of the story and many times end in abrupt completely non climatic shot to the head. The stories drag several characters though such inhuman muck just so they can be there in the tunnel to die with surprise and hate on their faces. Love it.

Janetta Bitting says

The entertaining series continues.

There's no let down in the action in this book. Kluge continues to fight as only a shock trooper does. Web minds are a great concept.

Shelly Singhal says

Great

This series is really good. There are some errors like Marten chewing gum before battle on Jupiter. Possible, but not likely. I'm going to read book 5. This is fun

Vegard says

Liked it, keep writing Vaughn, I need more highborn and cyborgs :)

Long says

Apparently the series is not quite completed. Bummer.

Adela De Jesus says

Just great

I have other books in this series and also by this same author. I love the lead roles for the men.

Martin Kluge fights for Jovian system

As usual on his quest for freedom Marten Kluge gets entangled in another battle. This time the Jovians face destruction from the Web Mind and their cyborgs. He runs into his old preator who wish to end their manhood. Having to work with him and the highborne again brings him no joy but great help in protecting the Jupiter system and earth. Looking forward to next in series. Oh, you need to find out how Marten succeeds in his Jovian adventure. GOOD READING!

A very nice addition to the Doom Star series, probably the yet...Great characters, great new villain and story line. The author does a great job of weaving through various points of view. If you love sci-fi you need to read this series. Can't wait to read the next novel.

Mark Umstead says

Great stories but the author seriously needs an editor. Spelling, grammar and punctuation errors plus poor sentence structure and repeat sentences fill the pages of these books.

Becktemba Kazemde says

I love this series. Great action, easy read.

Brian Gaeddert says

One of the very best in the series.

Darrel Wolter says

Another great read by Vaughn Heppner

Another great read in this series as have all his books I have read. Very easy and enjoyable to read. It is the perfect way to de-stress and take my mind away from the real world. Thank you Vaughn!

Jim Kratzok says

Had to put it down 3/4 through. I kept trying to finish it but the writing style was so heavy and ponderous that I couldn't deal with it. I just couldn't care about the characters or the story line. In fact I put off reading this book for a year after reading the previous one in the series hoping it was just a phase I was go through because I didn't much care for the last book either. I guess I won't be reading the next book(s) in this series either. Somewhat disappointing.

John Morris says

a bit harder to read than the others and a little confusing at times but still well worth a read

Mike Nemeth says

Fresh from Mars with diplomatic credentials from a doomed planetary government, hero Marten Kluge heads off to contact leaders of the Jupiter confederation of moons and asteroids in "Cyborg Assault," the forth book in the Doom Star series. He's got with him his buddy and fellow shock trooper Omi and a female cyborg he befriended during the siege of Mars by Social Unity and its duplicitous cyborg allies. But as readers of author Vaughn Heppner, pleasant sailings and success remain tantalizingly distant. Marten's got series challenges ahead, and dealing with the absolutely bizarre Jupiter government, which is based on the teachings of Socrates, is first among them. Right away, he discovers cyborgs have taken control of a Jovian battleship and succeeds in blasting it apart. Then he gets to meet a tiny woman named Tan whose role as chief strategist means she's a bigwig in the Jovian hierarchy. She's also an arrogant bitch who sees Marten as a barbarian. Marten gets arrested before winning over the captain of the new ship he's rescued by and discovering another rebellion. He finally gets the Jovians to accept that they're under threat of extinction by the cyborgs, and battle begins. There's also an appearance by the Praetor, a really nasty Highborn who doesn't much care for the apparent superiority of cyborgs. Big battle climax. These Heppner books have me hooked.
