Michael Alexander Henke says

A very nice hardcover art book covering Bayonetta. Lots of concept stuff, lots of commentary from the artists and developers. You get to see all the iterations the character went through, and basically how they built the game from the ground up. As an added bonus, the book comes with a DVD. The DVD is a little over an hour and has interviews with the creators and lots of behind the scenes stuff. Very interesting.

Kevin says

if you love the game, you will love this book and the documentary is just the icing on the cake.

Kenny says

Stunning visuals and great insights into how Bayonetta is as beautifully gorgeous as it is.

Lady Entropy says

Yep, this is what an Artbook should look like. Even if I sometimes want to slap the artists (their comments about how they were sad that Westerner audiences wanted an image of Bayonetta that didn't show her crotch so much).

But other than that... tons of images, information and OMG the concepts. They are GORGEOUS <3.

Sir Laguna says

Bayonetta es uno de esos juegos que me hacian pausar para apreciar todo en detalle. Los diseños de escenarios, enemigos, vehiculos, armas y personaje es absolutamente demencial y disfrutar de este libro es una obligación para todos los que amaron el juego tanto como yo.

Por cierto, los primeros capítulos dedicados a los diseños previos de la protagonista? hay todo un desfile de alta costura esperando aqui!

Y les dije que trae un DVD con un documental sobre el juego?
