Midnight Escape Linda Castillo

Re-read Book 2 in the romantic suspense series Operation: Midnight by New York Times bestselling author Linda Castillo.

Special Agent Jake Vanderpol swore he'd buried all tender feelings for Leigh Michaels. Until he learned that the arms dealer she'd testified against six years ago had escaped. Suddenly the memories were back...memories of urgent kisses in hiding. But after what happened, would she trust him to save her?

Danger just exploded from her past with the same raw male power that first drew Leigh to her former agent-protector. Then Jake used her as bait to get his man, and she'd fled into witness protection. Now a killer wants revenge. But who will shield her heart from the only man she'd ever let touch her—body and soul?

RLA says

This is the story of Leigh who has been in the witness protection program for 6 years after testifying against her former boyfriend, after she found out he was an arms dealer. The male character Jake is a member of an elite group of CIA agents called MIDNIGHT (yes, all capital letters!). He rushes to help Leigh after former boyfriend/arms dealer/all round bad guy escapes from prison with the intention of getting revenge on her. As the story progress we find out that Jake was the agent in charge of bringing down the bad guy in the original case, during this time whilst protecting Leigh they had an affair, but she found out he planned to use her as bait in order to capture the bad guy. She was forced to go through with this plan deeply hurt after thinking Jake had cared for her. Now needing Jake's help to try and escape from the bad guy she struggles with her both her past hurt and her feelings for Jake.

This was a really gripping story, it had lots of action as well as some really edge-of-seat moments (especially when the bad guy find the heroine! I was hooked!). The passion between the two characters was great, and their back story really added to the roller coaster of emotions the book contained. Definitely one of the best books I have read of the Intrigue line. The characters were great, I especially liked how Leigh was written with a really spunky personality and a backbone despite everything she had been through.

A great read!

Chris says

Thin characters, but I like it.

So I've read an earlier work of Linda Castillo and realize why it is being rereleased after the success of the Amish mysteries she has brought to perfection. Her character development has vastly improved as this book Midnight Escape makes clear. The characters in any story are what draws me into a story and keeps me there. I kept wondering if I should go back and read the previous book but I'm not sure there is one; this being the sequel. At any rate, the regular looking back at actions that occurred in the characters lives before was tedious and their dialogue equally so. This is the chief reason for three stars.

All in all the plot was thin and the characters one dimensional. But in a time where I need an escape from very real world stress this book is just what I needed. Escapism in the form of pulp fiction. And it delivered. Not too much thinking. Just enjoy the ride like a Ferris wheel that I know the end but love the view anyway.

Redelijk,...niet top, maar het is een serie, en die lees ik graag uit!

Judy says

too much violence
