Brian Swearengin says

15 page short story. Pretty much consolidated Wendle and Benji's experience.

Sarah says

A very, very short intro to Call of the Herald. Not a lot to go on, but enough to pique my interest a little..

Paul Zentmyer says

This is a very short story. I thought it was a full length prequel but it wasn't. In fact, most of the book is actually the first book of the series. But it does give a little, all be it very little, look into the series. I would have liked to see more of Wendel & Benjin's lives before Catrin and what happened to her mother.

Morgan Sheppard says

This is a prequel short story that is designed to give you a taster for the full length novel. However, although it gives some idea of the main characters, there isn't enough here to make me want to read the next book along. It is well written, no doubt about that. It's just a bit too short for me, and lacks any hook to the characters or the world.

Kim Smith says

Awesome beginning to another fantasy series. I have the first book and will begin reading it soon.

J. says

I read the first book in this series, Call of the Herald, some years back, but not enough stands out in my memory for this little prelude to relate. (Except for the big cavern and underground lake; those I remember.) This is more a prologue than a standalone story, and there's not really enough here to draw me back into the series right now, with so many other books in the TBR pile. Except for the author's good, solid writing; even with a few added or missing words here and there, it's comfortable reading. If you're looking for a new fantasy series, a long one that can hold onto you for a while, you might give this novella and the first book a try; they're both free.

Sherie Greer says

A brilliant short story which preludes the book 'Dawning of Power'. Would definitely recommend reading this as it gives an excellent insight into the characters and their backgrounds going forward into the rest of the series which I am looking forward to reading.

Vera Maslow says

Writing is good, but just an unnecessary short story. Just dont get the point and it doesnt pique my interest in picking up the series from this.

Brenton Cunningham says

Good prequel

I very much enjoyed the read. However, the latter half is much of a rehash of the first book. Overall a good read.

Jenae (Jeni) says

Short but excellent prelude.

chucklethescot says

I initially put this as one star then changed it to two stars as I felt I was being a bit unfair on the author. There was nothing wrong with this story to be honest. It was well written, not too descriptive, a decent attempt to develop a bit of character which is not easy in a 15 page book. It is the story of two boys who want to be heroes getting ready to run away from their dull lives on a quest to change the world.

Basically the only reason I marked it down is because the story itself just did not appeal to me. The fantasy genre is hit and miss a lot of the time for me and this just wasn't my thing.

So if you like fantasy books don't let me put you off!

Liam says

Good taster, will check the series out

Fee Roberts says

Wayward Spirits by Brian Rathbone is a prelude to The Dawning of Power series. Benjin and Wendel embark on a quest to Godsland after being told by a mysterious stranger that the world was in danger and needed a hero.

This short story started out good, but missed the mark. We meet Benjin and Wendel and we follow on their quest, but then the story stops. I thought it would be picked up in the first book, Call of the Herald, so I purchased the book to find out about Benjin and Wendel's journey. Sadly, Call of the Herald did not give me any insight into what these characters went through on their journey.

You can read my review of Call of the Herald here:

<http://feeroberts64.blogspot.com/2018...>

Purchased from Amazon.

Rachel McKitterick says

4 stars.

This was very good. A great beginning to a series! I'd class it as a mg adventure.

Jen says

This story wets your appetite for the Dawning Power books. However, it just seems to be incomplete. I almost wish I hadn't read this before reading book #1.
