A.J. and the gang from My Weird School star in this special series of after-school, holiday-themed chapter books featuring all-new hilarious stories and thirty-two pages of games, puzzles, and more.

Summer is almost over, and you know what that means—time to head back to school! But when a tropical storm ends A.J.'s vacation earlier than expected, he and his family have to stay at Andrea's house. Ugh, disgusting! When everyone in the house starts getting cabin fever, and even back-to-school shopping won't calm the kids down, Andrea and A.J. are sent to Camp Ockatollyquay. The catch? It's a camp to get kids ready for school! But not to worry—Andrea and A.J. rally the Ella Mentry School gang to end their summer on a note they'll never forget.

Bestselling author Dan Gutman brings his kid-friendly sense of humor to this all-new series of holiday adventures. With My Weird School checklists and trivia plus tons of fun facts and puzzles, this is one weird back-to-school special you don't want to miss!

What happened?!!!!

I chose this rating because I don't like this point of view and how Andre thinks that A.J. is her boyfriend. She always thinks she is correct. I like it when Andreas isn't correct and I don't like the point of view. I recommend this book to people who are okay with being different and reading different points of views.

I love weird school books I read a lot of them in mrs bailey's class

Erik This Kid Reviews Books says

AJ is away on vacation, not to come back for another week, right before school starts. Well, would you know? AJ is back early! Apparently, there was a hurricane near where they were vacationing. And now AJ and his family are staying in Andrea's house. For a week. It's the best thing that's ever happened to Andrea!

This is a great back-to-school book! I love that it is told from Andrea's point of view (instead of the normal point of view, AJ). It was a very revealing perspective. Mr. Gutman knows how to write stories that gets kids reading! Like before, the illustrations are magnificent! Love the "Weird Extras" in the back of the book (games, trivia and facts).

NOTE I got a free copy of this book in exchange for an honest review

Gail says

The boy (7) gave this one 4.5 stars. we had a good time reading this one as it was from Andrea's point of view.

Erin says

Just okay. Actually, I was ready to quit part way through but my 6 year old wanted to stick it out. It is a "special" in the series. We may do better to start with book 1 of the actual series?

Jessica says

I think 2nd, 3rd, and 4th grade kids would like the humor. I didn't realize it was such a big series and would like to read a regular one, not one of the holiday specials.

Andrea and Arlo are the main characters. Their moms are best friends. Since Arlo's family came back early from vacation, they stay at Andrea's house until their renters are gone. Arlo has to sleep in Andrea's pink room. It has a cute sense of humor throughout the book.

Kathleen Fuller says

I thought this book was hilarious, especially the reader's performance. Poor Arlo. You just know he and Andrea are going to get married, but meanwhile she's going to make his life miserable with her over the top, OCD, list making ways.

Mymcbooks says

A book children will love to read. Narrated by Andrea, as she tells us about AJ's family summer vacation in Bermuda, her love for school and their rules, learning new things in school, Off to day camp and many more. Read about the 32 pages of bonus content which includes Professor AJ's Back to School facts, puzzles, trivia, games and more.

The illustrations by Jim Paillot helps to makes the story hilarious. I highly recommend this book.

FTC Disclosure: I received a review copy of this book HarperCollins Publishing in exchange for a fair and honest review. I was not monetarily compensated for my opinion in any way.

Completely unaware of the Dan Gutman franchise, I grabbed this book from the library to listen to on a road trip with my son and wife. I thought it might be some kind of school-related story my 5-year-old might dig that would help pass the time. It turned out to be pretty awful. The narrator is very annoying, but that's pretty typical for kids' audio books. What's worse is that there really was no story here -- no narrative tension. The only tension in the book is in the fact that the girl character and the boy character fight and argue a lot and the parents are always telling them to quit. There are sexist stereotypes all over the place here (girls love to shop, boys hate to shop, girls love school, boys hate school, boys are gross, all grown ups drink coffee, girls daydream about marrying boys who hate them, etc.). So unimaginative and uninteresting. Especially for a book claiming to be about "weird" kids. There's nothing "weird" about this book. Looking at some Amazon reviews of other books in this series, the neatly divided gender assumptions are a common theme in these books. What's also a common theme in the Amazon reviews is that these books are a big hit, especially with boys. Which basically means we are doomed as a nation.

Ernie Garcia says

I really liked Back To School Weird Kids Rule because I like all the other books in the series so when I picked up this one and read it I noticed that this book was written in the perspective of Andrea not A.J so I really liked it because its written from a different point of view.

Jenn Lopez says

This is my least favorite Weird School book told from the POV of Andrea. The audiobook version is really annoying. If anyone starts their experience with this one of Dan Gutman's Weird School books, they probably won't read any others. The story jumped around from AJ coming home early and Andrea's lists. Don't give up, try the other stories!!

Rachael says

Moderately funny, with a few laugh out loud moments. It was nice to have Andrea narrate for a change. My boys have both just devoured these books, and I love that Dan Gunman gets kids excited to read.

Sarah says

This book kinda reminded me of Fancy Nancy only instead of a love for fashion and french words, Andrea has a love for school and encyclopedia's. My daughter like it, however she shares those same loves as Andrea.

Vi (the Vi3tBabe) says

My 9 year old loves this series and this book. She always gets a kick out of reading one of Dan Gutman's books and her go-to series is the My Weird School books. I loved that this one included puzzles and trivia for a more active reading experience. I think the characters are whimsical and funny. The illustrations are amusing and very appealing to kids.

I highly recommend this series to for any and all children. Even if your kid "doesn't like to read", they will surely enjoy this series.
