The Power Of The Bite Lisa Oliver
Wolf Shifter/Vampire Novel

Dax Portrain has it all - he's the next Alpha of the only pack in town, he owns a successful night club and he has men falling all over him every night of the week. So when he catches sight of a new vampire in town, he tries to shrug off the instant attraction he feels. After all, everyone knows that wolf shifters and vampires do not get along.

Zane Macintosh has lived a long and full life, and while he might have issues trying to pass himself off as human at the Portrain police department, he knows it's only temporary and shrugs off the problems. A night out with friends turns his whole life upside down when he catches sight of Dax with his pack. The gorgeous hunk is his mate, but that doesn't mean that anything has to come of it. In fact, he's determined nothing will.

One explosive meeting sends both men's lives into a spiral. Zane knows the only way things can end well for his mate is to allow himself to die. But Dax has a stubborn streak a mile wide and isn't going to let Zane go that easily.

Warning: This is an M/M book and contains graphic scenes of sexual practices between two men. Some violence and coarse language, no cliffhangers, a definite HEA, and love of course, because I couldn't write any of my books without it.

Levi says

4.5 stars i liked the story...it's an easy read ...just read it!

Susan says

Fascinating story

This is a fascinating and well-written romance and I am looking forward to reading more stories by this very talented author. A mating between an alpha wolf and a vampire in a town with no tolerance for the mixing of paranormal species. Secrets are slowly revealed as the two lovers attempt to make a life together. An M/M romance

Barbara Lampron says

I loved it!!!

Yes, we definitely need more of that! It was a must read. With all the wolves and vampires in there it was exactly what was needed. Thanks Lisa!

Morgan Scott says

Amazing

I loved this book so much. I think that this author is amazing and I can't wait to read more of her books. She create the best stories, all she needs now is make pregnancy!;) She doesn't need it though because her books are amazing other wise!:)

Tammy says

This was an excellent read and so very different than your traditional shifter series!!! Wolf and vampire mates, what!?!?! It totally worked though and I can't wait to read more from this brand new series! :-)

Heidi Plach says

Loved it!

Another great story by a very talented author! The storyline between Dax and Zane was wonderful. Yes there was some angst, but it fueled the story. And yes I would love a book for Alex and Ryan and lance and nico.

Kenike says

Another great story

I'm totally ready for this to be a new series! Entertaining from beginning to end! I can't wait to see what's next!!

Karen says

I loved this book. It would have fit in just fine as a spinoff of the Cloverleah Pack series. Maybe if she decided to write more books to go with this book then she can include some cross over. I thought it was well written and a joy to read. I have loved all the other series by Lisa Oliver that I have read. I look forward to seeing what she has coming out next.

Theresa says

This standalone was in the same world as the Cloverleah Pack. It would make a nice spinoff series. I enjoyed how Dax matured through the story. He learned to treat Zane as a non traditional true alpha mate. He learned to use tough love on his pack. I still don't understand, nor liked, powerhouse Zane playing martyr at the beginning. Lots of action. Really nice sex and sweet blood drinking.

315 says

I liked this a lot more than I expected to for a shorter story.

Jacq says

Oh my...
This cost me money. Ok forget the money,the damn time!

Choppy writing & No spark not for me.

Blaine Hall says

Lisa Oliver has done it again. I have been a huge fan of her Cloverleah series and this book is just as

incredible. Dax and Zane are a real surprise. I love the way she has worked the vampire/shifter dynamic. The entire book was full of incredible surprises. Just when I thought I had a handle on it, she would throw another wrench in the works. I really hope that there is going to be more of this world that she has created, it grabs you immediately and doesn't let you go until the end. There was a HEA, but I think there are some more stories to be told...(hint, hint)

Raj says

This book was like a phantom itch. The one you search frantically for & it just eludes you much to your dismay. When I thought it had reached its climax, it just kept on spewing out more & more villains. It was like an apocalypse of villains. It had all the right ingredients but the temperature was all wrong. It was just the wrong side of epic.

I liked it to the point that it was okay. This idea would have been a great addition to The Originals or TVD though. Imagine if one of Klaus' past lovers were male. I mean he has lived a 1000 years so it's not outside the realm of possibility. As for TVD I thought Elena making me grind my teeth was torturous, now that Caroline makes me want to pull them all out.

But back to this book, read it, you may like it.

JLOlufsbooks&dogs says

Good potential

This story took quite a long time to feel good about MC Dax. I really liked Zane and would have enjoyed more about his background. I felt he gave too much and Dax was so unaware of what a partnership should be, it made the book a bit frustrating instead of warm fuzzier. Interesting blend of Vampire and Wolf though.

Jacqueleen ? says

This was a typical Lisa Oliver novel chock full of lots of biting, sexy times, and protectiveness. I adore her Cloverleaf series so I don't know why it took me so long to read this one. An oversight on my part.

Dax is a wolf, and the next Alpha wolf of his current pack to be exact. To be true mated to a vampire is not how he saw his life plan going at all. Vampires and Wolves don't get along at the best of times.

Zane is a vampire, a very old one. He realizes the moment he spots Dax in Dax's club that he's his fated mate. But Zane is not an idiot and understands he must stay away for his mates sake. After all that's what mates do they care and protect each other.

That is apparently not what Dax thinks mates do because after biting his mate in a haze of lust Dax proceeds to act like a right bastard. He ignores his mate, shows him no affection. Meeting him only to slake his lust and give Zane a few sips of his blood to keep him alive, but barely. Thankfully he eventually comes to his senses and not a moment too soon.

What ensues is one back stab after another when news of the Vampire/ Wolf true mating has reached the pack. Dax, again, occurs the wrath of his mate making mistake after mistake in misjudging him. Even though he does it under the guise of protecting his mate it is no less insulting to Zane.

The two get back on track in the end after enduring the minefield of what it means to be mated to another species. Dax especially is quite ignorant of Vampires and their habits/needs. Communication was much needed between this pair. If it wasn't for other people bestowing their wisdom on Dax I don't know if the couple would have worked things out when they did.
