Bear With Me Moxie North

Pacific Northwest Werebears Book 3 - Bear With Me

Conner Rochon thought living in the wilds of the Pacific Northwest and running a logging company with his brothers was tough work. Add to that, he wasn't too keen on sharing his body with a grizzly bear. Shifters normally had no problem with their animal side. Conner was not one of them.

Mackenzie never gave a second thought to being a shifter. She loved it and finding out that she and her cat were mated to a reluctant bear was a blow she wasn't expecting.

Conner is tired of not being able to make his own choices in life. Is he willing to lose the love of his life to keep control of who he is? Does Mackenzie have the will to fight for them both?

Loggers, Cougars, and Werebears, Oh My!

Prepare to read about a curvy girl that meets the man AND bear of her dreams.

A bear with issues is no match for a cougar with claws.

Adult material with sexual situations and language (Conner likes to swear!)

Julia Torrey says

My heart...

Is aching! Holy cow I didn't think I could cry so much in one reading session. Kinzy is stronger than any woman I've ever read about. God I wanted to kill Connor but I understood. This was perfect. Loved it!

Kiki says

What is the point of reading a shifter romance if there would be this much pushing and "I'm not good enough for you shit" when there's a guarantee she'll have to take him back because of the bond and with minimum to zero grovelling?

Robin says

[I could see him acting like this if his bear had forced its way out and killed in self-defense-- human or animal --when he was a child, but not just coming out to scare off a wild animal. (hide spoiler)]

L M says

Sorry this book is just a big disappointment, not at all what I expected from this series. Luckily I have read quite a few of this authors books before this one so I know this is not a normal flaw. When an author can make you feel something/anything, whether good, bad or annoyed I think that is a positive thing. Ending up really not liking the hero is a sad situation. After books 1 and 2, I was really looking forward to this one. Apart from seeing the rest of the Rochons I was so upset and felt let down. Conner was just a complete idiot to Mackenzie and cruel with it. His family was so ashamed of his behaviour. He was so lucky in that his mate was also a shifter but he just behaved like a ratbag. Kept her going in circles about how he did not want a mate but had sex with Mackenzie then pushed her away again. Connor had never made peace with his bear and thought it was controlling him, sorry, his bear had it right and Connor didn't. He was lucky Mackenzie was a shifter because anyone else would have killed him instead of forgiven him. I know he will be making up for his behaviour for years but he bought the Rochon family down for me. Unforgivable behaviour Connor. This will not be a reread for me unlike the rest of the series.

Jeanette says

Crazy stubborn ass bear

Marianthi says

Male was an absolute asshole

Marsha Spohn says

First reviewed at Haunted Bookshelf

Bear With Me is Conner and Mackenzie's story, the third in the Pacific Northwest Werebears series. Conner's story doesn't have the "thunderbolt" of desire and rightness that Cage had. It doesn't have the happy-go-lucky charm of Wyatt's romance. In his brothers tales of love Conner was the typical youngest brother, the brunt of goodnatured brotherly jokes, the one who bolstered up his brothers when things went bad and the one who most obviously didn't "get it" when Cage and Wyatt found their mates.

Conner has been living a lie most of his life. He resents his bear, doesn't like the loss of control over his own life that having a fate chosen mate demands and will not give in to the shifter lifestyle requirement of claiming his mate. No, it is not his choice and he wants nothing to do with the woman the fates have stated is his one and only love.

Kenzie never shied away from her cat. She and her cat were one and they were the happiest on the run, wild and free. She knew that her mate was "out there" somewhere and one day they would find each other. Until then she put up with her mother's matchmaking in hopes of forcing a mate bond and lived her life on her family's vineyard. At the request of her brother, Dax, she made the trip to the logging company of a clan of shifter bears since the troubles they had had at their vineyards seems to have moved to that location. She never expected to find her mate on this trip. Never expected to discover that not a cat but a bear was the man, shifter she was fated to love forever. And never, ever expected the pain and loss she would endure when her mate rejected her. Oh, she was good enough for mindblowing sex – but nothing more. No love, no connection, no children, no life of devotion between her and this bear. How could fate be so cruel as to show her the pathway to paradise and then block her at every turn from entering.

Kenzie and Conner's story is one of sadness, of fighting against what could be the best thing life has to offer. While the attacks on the logging company intensify, the danger to all of the family members increases. There comes a moment when Conner's life or maybe his understanding of his life will change – but will it change him deep enough to understand the damage he's inflicting on his mate, the one he is supposed to defend, protect and love for their lifetime.

I enjoyed Conner and Kenzie's story very much. Probably because it shows a part of the shifter life that we very rarely read about. What happens when one soul sharing an existence denies its other half? What happens to the animal spirit when the human wants nothing to do with it? How does a woman survive knowing that the man she loves, the one she would climb over any obstacle for feels no connection to her emotionally? How can love survive unfeed?

Bear With Me is a story that anyone who enjoys paranormal romance should read. The passion is there, but the love, the acceptance is slow to show its face. Read about another side to the shifter mystery and celebrate the ones who never had to face this type of challenge. A well thought out and executed storyline.

Tiffany says

I liked the tension in this book. Although I could have done without Connor being a total ass hat.

Vickie Chaisson says

Bear With Me

Connor is so broken and cannot be one with his bear and Kenzie only wants someone who truly loves her. How this lovely bear and his cougar find their HEA is one hell of a book. This entire series should not be missed.

DKW says

Stubborn Bear

Connor and his bear don't get along. When he finds his mate, he rejects the mating claim. But fate and his bear won't be denied. Danger, misunderstandings and love. No cliffhanger and Hea.

Jana says

Stubborn bear but I loved it ! Great series !

Alan says

Fate steps in and gives you what you really needed all along .

One of the brothers left without a mate struggles with his bear internally trying to coexist together man and bear . Then unexpectedly he meets his mate from Cali. another shifter not a bear but a cougar and his life changes again .

Erika says

Not planning to read. Just about every reviewer says the hero is a complete a** to the heroine and pushes her away constantly, hurting her repeatedly. Not for me.

I loved book 1 in this series but now that Book2 and 3 are no-go, I think I will just pass on the rest. Ah well.

Mollie says

3.5 Stars

Tomasz Kieniewicz says

what a whiny bitch conner was...
