Artifacts, Dragons, and Other Lethal Magic

Meghan Ciana Doidge

Artifacts, Dragons, and Other Lethal Magic Meghan Ciana Doidge

I wasn't even remotely interested in collecting the third instrument of assassination. It was far better for everyone involved — and for Warner, specifically — if I just let it be. And since I was the only one who could retrieve the artifacts, I figured it was my call to make.

I was wrong.

And though that wasn't unusual, I was just so ... so ... wrong ... about everything.

I was wrong about who I was protecting and why. I was wrong about who and what I could control. And I was wrong about who I was becoming.

Baker of cupcakes, maker of trinkets, half-witch, half-dragon, dowser, alchemist ...

Why couldn't I just be Jade?

Artifacts, Dragons, and Other Lethal Magic Details

Janey Leaver says

Always a winner!

This series of books never fails to keep me reading. All my favourite characters in one book...I'd missed Kandy. I am currently rereading them all with my purchase of the latest Dowser book. Seriously go get the first one...free on Amazon.

If I could live in a book world I think this would be the one!

Katie says

Finally done with this series. Love the twists and not being able to anticipate what will come next, but there is a lot that I don't care for. Writing off key characters, repeating villians with new name developed over 3 book arc...crutches

Andrea says

There us waaaaay too much filler in this book

I have really enjoyed this series, but I feel like endless chapters that contained nothing but boring travel info was crammed into this book and sandwiched between the beginning and end of the actual story, simply for the purpose of extending the depth of the book from novella to novel. However, take out all that filler and we have short, but decent story here. I hope there is more to this series.

Lou Fillari says

This was an enjoyable read. Exciting, violent and fun. And I'm pleased with where the story is going. No more dumb hidden instruments of assassination.

Sam Sigelakis-Minski says

A long-awaited installment to a fun series. Jade is slowly growing as a protagonist (I still find her kind of annoying and overly brand conscious) but she is accepting her general kick assness and powers. Love all of the side characters too. My favorites are still Kandy and Kett, but as far as character growth goes, this book was al Jade and Warner.

Mary says

This is the 6th book in the series and it doesn't disappoint. Jade and the gang are still after Shailaja, although Jade wants to keep everybody safe and so doesn't go looking for awhile which slows the book down a bit but allows the reader to read about some good sex and even better food descriptions. Once Jade realizes she's going to have to take out the rabid koala the action moves fast until the end. I was worried that this was going to be the end of the series but from what I read it seems like there has to be more - hopefully with a spiced up love life (I think Warren is a bit dull, I really wish she'd hook-up with Kett, he'd keep her hopping) and some more challenges.

Ed Graves says

My favorite

So far this one is my favorite in the series. More action, less internal monologue. Can't wait to see where this goes. Thanks.

Joy says

A quick break from serious reads. Good light entertainment for a lazy afternoon with hot dragon shapeshifters.

Krystyna says

Betrays and manipulations lead to "I quit "

Awesome. She has been used to find 2 instruments of assassination but she refuses to find the third. However that is not acceptable to the dragons and once again she finds herself on the path to find the third. Betrayers, manipulations, the killer kid and finally imprisonment are her rewards for helping the dragons find the instruments. Not even the fact that the killer kid was after their blood will sway them. A really good read but really felt that this should have been the final book in the series especially as she walks out on them with the words "I quit". You really couldn't get a better ending then that.

mary-kay richardson says

This Series

is so good I WAS COMPELLED to read them one after another. She has a great proof reader as there were no mistakes that I found. Now I am sitting here wishing there were more of this series!!!

Ms Joanne Alderson says

Unputdownable

These books have me gripped. I can not wait to buy the next one. Hope the series keeps going on

Brenda says

Jade heroine, baker of cupcakes, maker of trinkets, half-witch, half-dragon, dowser, alchemist and loyal friend! I have really enjoyed this Dowser series, great characters that you care about, wonderfully written, full of twist and turns. Excellent fantasy series looking forward to the next one.

Jessica says

[I really don't like the attempted Scottish brogue used for Blackwell (hide spoiler)]

Renee Rearden says

Dragons be deadly...

Jade is pulled into another deadly assignment. The Nine are pushing her toward one outcome. The rabid koala is pushing her toward another. Through tenacity, loyalty, and love Jade just wants to get to the other side with those she loves safe and those who are threats dead. Sometimes, a girl's gotta do what a badass girl's gotta do.

Kylie says

Alright- let's be real here. Jade was really whiny in this book. She was complaining a lot. And she's actually in a solid relationship - which I don't really like for her. At least - I don't like it for her with Warner. (Meghan - can you PLEASE let her fall in love with Kett? He's been in love with her for so long now - since the first book. And we all love him. And he's a good match for her. I just want them to be together!) So now that the negativity is out of the way - I still like Jade. I still like her story. While I think the majority of this book showed her in a weak light - by the end she was KICKING ASS. I LOVED the way she came through in the very end - like a boss! And she was hilarious about it. I do worry, though, because she used the words 'Mine, mine, mine!' - similar to Shailaja, meaning maybe she got more than she bargained for at the end? I'm not sure yet. I'll be reading the next three, and waiting for them on the edge of my seat until then! I really am in love with this series and couldn't be happier to have found it! Thanks for putting the first one out as a freebie - I'd never have fallen in love without it!
