This is the last book in Summer's summer. I think this was a nice conclusion to the series and wrapped up things nicely.

The longer I kept reading, the more these characters' flaws showed through. Summer is a bit of a slut. I mean, she says she and Seth are official, and then she's kissing Sean. Yet... she "loves him"? Excuse me, they've known each other for 2 months. But whatever, I will pretend that that is forgivable. Diana annoys me because she feels like revenge is justified. And Marquez, she draws back every time she feels too emotionally involved. It just begins to feel a little bit unrealistic.

Despite that, I think that this is a fun summer series (no pun intended) and if you're looking for a really easy read, try this. 3.5 out of 5 stars.

I read this in middle school and loved the series. I was away at summer camp when I bought the next edition in the series out of my allowance lol. In my 30s now and maybe I will re-read this soon :)

I read this when I was a teenager. One of my all-time favorite series.
