The Ballad of Desiree Susan M. Carr (Editor)

It is the 1970s. Desiree is twenty-two years old and seems to have it all – a 1949 Chevy van, a cabin in Eastern Washington's Huckleberry Mountains, a newborn son, and a wild lover.

THE BALLAD OF DESIREE is a thrilling road trip through an experimental, erotic decade of free love but more significantly it is the poignant story of a young woman's journey.

Desiree is an adventurous free spirit. When a bigger world presents itself, she must make a choice. Will she surrender all that she has to pursue her authentic identity?

Won in a Goodreads giveaway.

At first, I wasn't sure about this book. Desiree was a real free spirit living in the Washington mountains. Then she meets Ruby and a story emerged of their relationship, the family unit living in changing times, her goal for an education and performing along with her finding some alone time to contemplate life.

I enjoyed the format which had very short chapters. The story emerged more along the lines of reading Desiree's personal diary. Sometimes she was like a hippie with her communal love, music, peace and freedom; after she became a mother she was more concerned about a future and providing not only love but money and stability to family. She basically grew up and took responsibility, but found a way to have it all.
