Vai ficar muito bom se tiver um duelo entre o Ra's Al Ghul e o Destruidor :P

Based on the hit Nickelodean show - Teenage mutant ninja turtles ,and the famous , best cartoon show of all time , - Batman the animated series . This issue gives a fun filled ride and a mix of nostalgia as Batman is trying to track 6 villains who have mysteriously escaped via Arkham Asylum.

While investigating Batman manages to re capture Two-face and gets a hint that suggest that there may be something fishy going on and even stumbles across a portal of energy .

Meanwhile Turtles and April get alerted of another portal nearby and possibly a return of Kraang , but it's not Kraang that awaits them but something else entirely .

a brilliant debut of the series and it does look like it will get better with time as the art work is a throwback to the batman the animated series and the Nick TV show with some of the jokes being a tad bit hit and miss but overall a fantastic issue

OK, I have mixed feelings about this one. First of all, it's yet another crossover nobody asked for. But *hey!* It's based on one of the most popular superhero cartoons ever - **Batman: The Animated Series!** Which automatically makes it worth checking. The problem is - for **Ninja Turtles** part they chose **2012** version from **Nickelodeon**. Different people may have different opinions on that, but for me... it feels like these two just don't mix. Like oil and water. The generation gap is too big. Way too big. So there's no other way, but to compromise. A lot. They needed to make **Batman** part more "fresh" and the **Turtles** part more "rad" just to make the whole thing possible. And I can't say that such compromises feel that good. It's just... I don't know. For me, the original **1987 Turtles** cartoon would totally fix the problem. As is... it feels like something is really wrong about both parts. It's like making a new **RoboCop** vs. **Terminator** comic and using the **RoboCop** from **2014** movie. It's just... doesn't feel *right*.

It's a pretty cute reading, though. The humor is OK (which is a big surprise, since a lot of **DC** writers have problems with that lately) and since the entire thing is a pretty light reading, this comic sure can give you some simple fun. Which may be a good thing after a hard day. And still, I can't decide weather I like it, or not. It isn't bad, it's not the most forced thing I've ever read, and still...

Ninja turtles and batman!

Starts off good. Basically just a story to set up a meeting between the two groups. I know it's a comic but feels short.

That was fun, the sarcastic sense of humor is awesome!!
