From Reader Review Black Panther #11 for online ebook

Bill DeGenaro says

Just about perfect balance between bringing storylines to a close and raising new questions about the future of the kingdom. Fierce!

Lola says

I have been reading this Black Panther run since the beginning, and I couldn't help but wonder where all of this would lead. Would T'Challa be able to keep his country together? Would Tetu manage to permanently divide Wakanda? What about the Midnight Angels? When Shuri was brought back, only more questions were raised. Who would be in charge now: T'Challa or Shuri?

This issue felt like it was supposed to wrap up at least some of this plotlines, but I only have more questions. Coates is a very evil man who ends his issues on cliffhangers. (view spoiler) Black Panther is a consistently engaging series, and I highly recommend it.

Michael R. says

BP

BP gives another world prospective. Coates has provided historical of the beauty and sophistication of African nations on the continent. Truly these untold stories of Africa's brilliance and philosophy provides inspiration and hope of heroes and heroines, who with super powers, do an amazing job in promoting community and inclusiveness.

Taylor Cayes says

I love that they addressed rape in revolutions.

Christopher says

Well, the revolution is over. Because an academic made a SPEECH. (best part being that Panther tells Changamire that he only has TWO MINUTES of airtime). And that's sufficient. Methinks Wakandans are easily persuadable people...

I get the feeling this is Coates' dream journal come to life.
