Return of the Cowgirl

Eve Gaddy

Return of the Cowgirl Eve Gaddy

He knows who she is...but she doesn't

PI Mitch Hardeman is an expert at finding people, so when Glenna Gallagher disappears from the ranch where she works, her brothers hire Mitch to find her. He thinks his job is done after he tracks her down, but Glenna doesn't know him, and she doesn't remember her brothers or even her real name. Mitch must earn the beautiful cowgirl's trust so he can bring her back home.

She doesn't know who she is... but she knows who she wants

With traumatic amnesia caused by a bus accident, Glenna Gallagher knows nothing of her life before that day. She only knows she's in danger, and that Mitch offers protection and the truth about her identity. But once home in Marietta, her memories are still missing. Can she convince Mitch that she doesn't need to remember her past to know he's the only man she wants? And will she regain her memory in time to save herself and the man she loves from the danger that follows her?

Shelagh says

Return Of The Cowgirl is the fifth and final book in The Gallaghers Of Montana series, which tells the stories of the five Gallagher siblings. Set partly in South America and partly in one of my favourite make believe towns, Marietta Montana, this is a contemporary western with a nice mix of sweet and sexy. Return Of The Cowgirl can be read independently or as part of the series.

Glenna Gallagher is a feisty redhead who spends much of this story suffering from amnesia. On the run but with no real idea why people are chasing her, she's suspicious of everybody though it doesn't take her too long to learn to trust Mitch Hardeman, the private investigator her brothers have hired to find her. It doesn't hurt one bit that she also finds him sexy as hell.

I really loved the South American part of the story. I think it is some of the best Eve Gaddy writing I've read. I was well and truly hooked, and constantly on the edge of my chair worrying that Mitch and Glenna would be caught before escaping to the States.

The second half of the story is gentler, allowing these two to get to know each other. I'll admit that I preferred the faster pace of the earlier part of the story, but that doesn't mean the second half was boring. Just different, and ultimately appropriate to what was going on.

This is a fairly quick read—It took me about three hours all up—but I think it's a fitting conclusion to what has been a lovely series.

Eileen says

What an emotional ride Eve Gaddy takes the reader in The Return of the Cowgirl, her fifth book in The Gallaghers of Montana series. Glenna Gallagher has been missing from the ranch she worked at in Argentina. Her brothers are at their wit's end and hire a private investigator to locate her. Mitch Hardeman finally tracks down Glenna only to discover she doesn't know who she is. Although Glenna suffers from amnesia after a bus accident, she knows she's in danger. Mitch offers her protection as well as explaining who she is. Once home in Marietta, her memories are still missing as she meets up with her family. Glenna wonders if she can convince Mitch that she doesn't need to remember her past to know he is the one man she wants. As she begins to regain her memory Mitch wonders if he can protect this woman he loves from the danger that followed her from Argentina.

I loved reading this book and had trouble putting this book down, reading it in one day. Ms. Gaddy is a wonderful story teller. She drew me in and did not let me go until I read the last page. I highly recommend this book to other readers.

I voluntarily reviewed a complimentary copy of this book.

Sandi Ramirez says

As most of you know by now if you read any of my reviews you know my heart is in Marietta, Montana....(although I will say I am loving Sweetheart too). This is the last book in the series about the Gallagher sisters and while the end is always bittersweet, I know that we will get to see the girls and their mates in future books so this is not goodbye but see ya later.

In this book handsome Mitch goes after the missing Gallagher sister. She is the one that pops in every so often and I do mean often in the other books. She just likes to do her own thing and her own thing has gotten her into a bit of a mess this time. Glenna has amnesia or does she? Mitch is not sure she knows who she is and is just playing like she doesn't remember or really doesn't know who she is. BUT once she discovers she is running from something and she has no idea why or what...he is down to help this gal he is attracted to. Heading home to Marietta will it help her to remember her family? Come along for a wonderful ride. This mystery of a book has everything you could want and more. Suspense, Romance and of course Marietta, Montana!

Isha Coleman says

Return of the Cowgirl (The Gallaghers of Montana) by Eve Gaddy

Already a star within the world of romance, Ms. Gaddy is quickly making a name for herself with romantic suspense as well. Return of the Cowgirl shows her mysterious side with intriguing characters and a suspenseful story. Glenna and Mitch deliver just what you'd expect from an Eve Gaddy novel. Fierce attraction, strong characterization and an abundance of emotion. The plot proved a bit confusing at times but I enjoy reading stories that are cryptically engrossing, so this was right up my alley. (3.5 stars)

Bonnie Gonzales says

I have waited (not to Patiently) for the return of the missing Gallagher sister, and oh how this book had me turning the pages.

Glenna without her memory knew to trust only one man, Mitch, but she also knew she was falling for him and she could tell he had feelings for her but would not act on them cause it was against his code of conduct, he could not break the trust her brother had in him, and that angst was what made the book such a scrumptious read.

Return of the Cowgirl by Eve Gaddy The Gallaghers of Montana
He knows who she is...but she doesn't

PI Mitch Hardeman is an expert at finding people, so when Glenna Gallagher disappears from the ranch where she works, her brothers hire Mitch to find her. He thinks his job is done after he tracks her down, but Glenna doesn't know him, and she doesn't remember her brothers or even her real name. Mitch must earn

the beautiful cowgirl's trust so he can bring her back home.

She doesn't know who she is... but she knows who she wants

With traumatic amnesia caused by a bus accident, Glenna Gallagher knows nothing of her life before that day. She only knows she's in danger, and that Mitch offers protection and the truth about her identity. But once home in Marietta, her memories are still missing. Can she convince Mitch that she doesn't need to remember her past to know he's the only man she wants? And will this is Glenna Gallagher and Mitch Hardeman's story.

Glenna sat at a small table in an outdoor café in Valparaiso, Chile, a battered backpack at her feet. She looked as lost and alone as anyone he'd ever seen.

Mitch Hardeman walked up to her table and said, "You are a damned hard woman to find."

Will Glenna regain her memory in time to save herself and the man she loves from the danger that follows her? read this book to find out.

Return of the Cowgirl by Eve Gaddy is a 3 star book.

Margaret Sholders says

I am so lucky that I found Tule Publishing. I have some great authors from Tule and Eve is one of them. She always writes some tough story lines. This one is one I will remember forever. Mitch is a PI looking for the sister who ran from her family to Argentina. Glenna had some trouble and is now on the run again. She has lost her memory. Mitch has a hard time to get her to trust him. There are a lot of twists and turns here. They have to get to the planes to get them back into the USA. Here is where Glenna has all her family to want to help her. That scares her most of all. She wants Mitch. Mitch won't play with his clients. You will have to read to the end to see how this story ends. I was pulled in this book from the beginning. Don't let this story slip away! Please read this book! Enjoy your reading! I volunteered to read and review this book.

Marsha Spohn says

Reviewed at Keeper Bookshelf

There's always a touch of sadness when it comes time for the final story in a series. I've enjoyed the Gallagher brothers journeys in finding that special someone that fits them perfectly. The only empty place was where Glenna should have been. But their sister had left years ago after a fight with their father. Oh, the guys figured out why, but she was still missed. Now Glenna has gone missing under unbelievable circumstances and they'd hired Mitch to find her and bring her home. Trouble is, it's hard to come home when you don't know where home is.

Glenna was on the run. From what exactly she didn't know, but she knew instinctively that her life was in danger. This stranger who claimed she was someone she couldn't possibly be was annoying, stubborn and, if she admitted it, quite handsome. But still a stranger she couldn't trust, until he'd rescued her from an abduction and kept her safe. It's hard to imagine not knowing who you are. We all have memories that we'd love to erase completely, but for Glenna a trauma after a bus accident had wiped her memories and she truly had no clue who she was. She only knew for certain that she was in danger, and she had a secret that could cost her more than memories, it could cost her life.

Return of the Cowgirl brings Glenna Gallagher home. It also brings danger and mystery along with her. Glenna lost her memory but she didn't lose her stubbornness. Mitch and Glenna have an intense attraction, one that Mitch is reluctant to act on since she doesn't know who she is. Glenna has no such worries for she's living in the moment for her memories may never return. The danger she's in is very real and adds an edge to this romance from the very first page. It's always a delight for me when past characters reappear, and in this

final story in the series we catch up with everyone... even the dogs and horses that have been a part of all the Gallagher's romances. I've had fun with these people, and I would highly recommend this story, as well as the entire series for any Romance reader. If you love mystery, sassy characters and a family that is tight knit then you'll enjoy Return of the Cowgirl.

I received an e-ARC of this novel from the publisher via NetGalley. That does not change what I think of this story. It is my choice to leave a review giving my personal opinion about this book.

Alima Livzletlivz says

The Gallaghers of Montana have fallen and fallen hard and now it is time for the missing Gallagher sister to return to the safety of her brothers and family.

Glenna Gallagher doesn't remember her past or her name for that matter. With an unexplained urge to protect herself and fly under the radar, she moves from town to town doing, never really understanding what's she's running from or who she's hiding from until private investigator Mitch Hardeman catches up with her.

Hired by her brothers to bring Glenna home, Mitch has his job cut out with Glenna's amnesia and gaining her trust to take her back to Marietta to her family. With danger lurking in the shadows and her memories coming in bits and pieces, Mitch's protective instincts come on full blast, and as they navigate home, so does his attraction to Glenna.

"Return Of The Cowgirl" is one of the coolest books I've read. A simple story of a sister gone missing and the tenacity of her family to bring her home; no matter what continent she's been living. With a hint of mystery and no histrionics whatsoever, this is a wonderful story of a woman trying to come to terms with her past and future and of a gentleman willing to go to any lengths to protect and cherish her.

Eve Gaddy does a great job with developing the relationship between Glenna and Mitch as well as the delicate and sensitive relationship with her brothers. I've come to love Eve Gaddy and her wonderful love stories full of charm and charisma, and her Whiskey River series will always remain as one of my favorites of her works.

Received an ARC from Tule Publishing via NetGalley for an honest review.

Heather 123 says

I have not read any other stories in this series. This book can easily be read as a standalone.

I liked the plot in this series...it was very different. Mitch is a PI hired by a group of 4 brothers to find their sister who is in trouble. When Mitch finally tracks her down, he's in for a huge surprise as it turns out that Glenna has amnesia and has no idea who she is.

The relationship between Mitch and Glenna is slow to build as it should be given everything going on and the trauma that Glenna suffered which resulted in her amnesia. Mitch is overly cautious which I appreciated. He didn't jump right in but instead focused on what he thought was best for Glenna.

** ARC received from Netgalley **

BookSnuggle says

Return of the Cowgirl (The Gallagher of Montana Book 5) by Eve Gaddy

This is Glenna Gallagher and PI Mitch Hardeman's story.

I enjoyed the Glenna's brother's stories. Now, we finally get Glenna's story. I've enjoyed this series. The series is best read in order. Glenna has been missing and Mitch has found her but she has amnesia. Can Mitch gain Glenna's trust? Mitch has his work cut for him. I enjoyed Mitch and Glenna's characters.

This story is full of mystery, suspense, and hot chemistry. FYI, contains mature content. I voluntarily reviewed an Advance Reader Copy of this book.

Paula says

I have read this entire series of Gallaghers so I had been thrilled to finally find out what had been happening with the one sister Glenna in Return of the Cowgirl by Eve Gaddy. Even with that said, this book would stand well on its own if the brothers' previous stories had not been read. I can recommend them too.

Return of the Cowgirl was vastly different from the other books in the series but I liked it. I chuckled as I read the author's note at the beginning, it seemed Glenna had always been a strong-willed individual even

for the writer. From reading the preview, Glenna has traumatic amnesia but that is just the tip of the proverbial iceberg in her story. It is romance with a hint of thriller added to the mix. Nothing too dramatic. The good guys are good, government agencies can be trusted and the bad guys are identified early. If I am ever lost or in trouble, I hope it is someone like PI Mitch Hardeman who comes after me!

Return of the Cowgirl is the kind of read that is enjoyable without being nail biting. Now the siblings are all together again; a wonderful finale to the series.

An ARC of the book was given to me by the publisher through Net Galley.

Monique says

Review written: August 7, 2017

Star Rating: ★★½??

Heat Rating: ?????

An Advanced Reader Copy (ARC) of this book was received free via Netgalley for an honest review.

Glenna's book, as the last of the Gallaghers and as someone largely absent from the series, is not a Marietta affair. While she does have a story, it feels more like a vehicle to see the others one more time.

Glenna gets into a terrible fight with her sexist Dad (apparently there are a lot of them floating around Marietta) and then hightails it to Argentina. Of course, seven years away from Marietta and all we see are flashbacks to nothing related to her day-to-day experience.

With amnesia and on the run, Glenna is saved by Mitch who brings her home. The cops/FBI are involved and then her memory returns and everyone lives happily ever after. At least, that's how it feels. *Return of the Cowgirl* skirts any real issues and basically skates over any possible depth. It's not even frothy and sweet given the romantic suspense angle. Glenna remains a non-entity and even Mitch's relationship to Austin (his brother) is treated particularly casually.

This was a hard book for Gaddy (Glenna was never really there for her) and it shows.
