Isha Coleman says

The Barefoot Wedding (Married in Malibu #3) by Lucy Kevin, Bella Andre

Love gone wrong is so much sweeter the second time around. Amy and Travis are a testament, not to all the ways they got it wrong, but to all the work they did to get it right. The Barefoot Wedding is a celebration of the heartache and hard work that goes into getting it right. From stupid mistakes to fresh starts, love is an ever learning experience. Kevin digs deep into the flaws that make us destined to fail and determined to succeed in matters of the heart. The glory of love means finding the strength in forgiveness. A subtle read with a powerful message.

Ebella says

Best quote: "When it turns out the truth is that loving someone, truly loving them with everything inside you, means getting over your own fears so that you can give them every piece of your heart. Even when it's hard, even when it's scary. Especially then."

My opinion:

It isn't the typical second change love story you are used to. It's more a story about the willing to love and overcome your own barriers. Love isn't judgmental, you are only doing to yourself. Will I ever be enough? The Barefoot Wedding gives the answer, yes you are enough, just the way you are!

I loved to read about the friendship between Amy and Maya. What a special thing she did for her friend! And I am in love with the Malibu wedding venue and the Married in Malibu series. What a beautiful and heartwarming place is that! Luckily for us there will be much more weddings to come.

4 stars The Barefoot Wedding by Lucy Kelvin (Bella Andre) finds place at the beautiful Malibu Wedding venue. You can't imagine a more perfect place for weddings, and for love. The story of Travis and Amy is exactly about that and I loved it!

Karina says

Received an ARC in exchange for an honest review.

This is my first time reading Lucy Kevin books so I backtracked and read the first 2 books in this series.

Travis and Amy had a history which did not end well, with Amy moving to Michigan. They meet again when Amy's best friend's wedding is to be held at Married in Malibu where Travis works, and Amy arrives early to check on things. They both realize quickly that the feelings they had before did not go away. However, their pasts and insecurities are getting in the way of the two finally finding their happy ever after. Thankfully, they were strong enough to overcome these hindrances, and not to mention, they have friends who want them to be together, and in the end they found their forever.

This story was simple and sweet and had very appealing characters. Amy and Travis are just like us — we all have our own pasts and insecurities — so it was very easy to relate to them. It is well written, as what you can expect from Bella Andre (writing here as Lucy Kevin), and it's one of those books where you swoon a bit and sigh in happiness when you reach the end of the story. I must say I still prefer the Bella Andre titles but this one held up pretty well. I look forward to the next book in the series, but in the meantime, will gobble up the other Lucy Kevin books!

Liza says

The Barefoot Wedding is a heartwarming reunion romance from Lucy Kevin. I'm a huge fan of reunion romances, and adored Travis and Amy's story.

Everyone has a past and Travis is no different. He unfortunately comes from a pretty ugly family history of abuse and gang members and feels like that history means he isn't good enough for someone as wonderful as Amy. Of course being a man, Travis never shared his reason for distancing himself from Amy 3 years ago; he just ended their relationship.

Amy comes to Married in Malibu early to help make sure everything will be absolutely perfect for her best friend's wedding. She had no idea she would run into Travis yet I love she didn't back down once she found out he worked there. I loved that even though Travis didn't feel like he was good enough for Amy you could tell by his actions how much he still loved her. He went out of his way to help her further her art career and he really does have to fight himself much of the time to stay away. Yes Amy ran away to nurse her broken heart years ago, yet this time she is there to fight for the man she still loves.

I really liked Travis and Amy as a couple. There was a sweetness about them and they really did just seem to get each other. They had wonderful chemistry together and I loved they really did seem to honestly be friends with each other as well as lovers.

The Barefoot Wedding chemistry runs more on the sweet side of romance, and it was a truly satisfying story. I highly recommend both this story and the series to romance readers who enjoy sweet and heartwarming stories.

Rating: 4 Stars (B)

JanisB says

I love this short and sweet second chance romance by Bella Andre/Lucy Kevin. Travis and Amy were “together” 3 years earlier but when Amy, an artist, professed her love to Travis, who works in security, he broke things off. Travis felt he was too “damaged” to move forward in a relationship, thus ending their friendship.

Move forward 3 years and Travis is head of security at Married in Malibu. Married in Malibu is a premier venue that the rich and famous wed. They are known as a top notch venue with super strong security so everyone can “let their hair down” and not worry about photographers and news leaks. . Amy’s is the maid of honor for her best friend, super model, Maya’s wedding. Maya planned her wedding at “Married in Malibu” because of the quality of weddings that the venue put on AND she knew Travis worked there. Amy arrived at the venue a few days early to make sure all the I’s were dotted and the T’s were crossed and nothing was left to chance. From the moment Travis and Amy saw each other all bets were off.

Travis learned to deal with his demons and they hot couple found their happy ever after. There were some unexpected twists and turns but overall a sweet book. Can’t wait for the next one in the series!

Guilty Pleasures Book Reviews says

Honestly, I am one of Bella Andre's biggest fans. I love the way she tells a story, the way that the story just flows off the pages. But, this is the first time that I am reading her as Lucy Kevin. I was afraid that I wouldn't enjoy her sweet, totally romantic style of writing. Well, I was wrong. The Barefoot Wedding was sweet and romantic but it was also very interesting. It was actually a one-sitting read for me and I couldn't be happier that I read this story.

Married in Malibu seems like an interesting and fun place to get married. Well, that is if you want privacy and are willing to pay for the exclusiveness of the venue. But Maya knew what she was doing when she picked this venue. She knew that Amy would never say no to her so what better way to get Amy and Travis face to face, talking and maybe figuring out just what happened all those years ago that caused Amy to run.

Amy knows she has to harden her heart before she sees Travis again. But, she can't keep it under control. They keep getting thrown into unusual circumstances and she finally relents to that dinner. Only to be crushed again. She knows he loves her and can't understand why he keeps pushing her away. He, at least, owes her an explanation.

Travis sees the most beautiful woman he's ever known standing on the doorstep in the pouring rain. He can't believe that she's here. He can't help himself but be awed with her. He knows that she's the only woman that ever held his heart. He also knows that he's no good for her, that she deserves so much better than him. His heart is breaking again pushing her away but he knows it's for the best. Until he listens to the advice that he gives Nolan and realizes that it pertains to him as well.

What a beautiful story. I seriously can't believe that I haven't read Lucy Kevin before this and I can't wait to

read her again. I should have known that these stories would flow seamlessly without any flaws. The Barefoot wedding was sexy, flirty and entertaining.

Blender says

A perfect read for gloomy days. Sweet and guaranteed HEA.

Dirty Dayna says

3.5 **paint me a better ending** Stars

Lucy Kevin is Bella Andre's super sweet HEA pen name. If you know that going in you may enjoy it more. This story is one of the Married in Malibu series where they have created a one stop perfect wedding location and everyone on staff is blissfully talent and many are in love. This story is about Travis the security guy with security issues: P He does not believe he will ever be enough for Amy. Amy has lived the past 3 years being heartbroken about a date she went on with Travis that didn't pan out. This is almost a romance you could have your mom read and she would aww. But for me. It was unbelievable. I could have believed it better if their history was better developed or richer.

Cinthia says

A short and sweet love story, like all Lucy Kevin's stories.

Travis is afraid of not being perfect for the woman of his life, he has a past of pain, and broke both of their hearts three years ago when he walked away from Amy.

Now she's the maid of honor at her best friend's wedding. When Travis and Amy meet again and realize how important they are to each other and that the love has not diminished anything, Amy has to be strong to get Travis to open up and tell his past and believes that he is the right man for Any.

I love Bella Andre and Lucy Kevin's books but I think they need to be longer, I read them very fast. I enjoy every second but I need more. ?

Carma says

This is my first read from Bella Andre's pen name Lucy Kevin. It was a sweet, simple, second (or third) chance of love story with a HEA. 4 out of 5 stars for this title.

Travis and Amy fell hard for each other 3 years ago, but Travis felt he wasn't man enough to make Amy happy so he let her go to find someone to fulfill her dreams, and Amy ran far away.

Amy loved Travis then and she loves him now. When her friend decides to get married at Married in Malibu she send Amy in a week early for prep work. Amy knows Travis works security at the event location and wonders how he's been all these years. Will they have the same powerful connection as they once did?

Travis can't believe Amy is standing at the door when he greets the arriving guest. She is still as beautiful as ever and he is thrown right back into those old feelings. He knows he still isn't good enough for her, but can she make him see that they are perfect for each other?

The Barefoot Wedding is book #3 in the Married in Malibu series, I have no read the other two and I was perfectly fine. Did not feel lost as it read as a standalone very well. It is a sweet love story, about 2 people who fell in love then drifted apart, only to be drawn back together again. Once again, Lucy Kevin (aka Bella Andre) weaves a wonderful character driven story that makes you feel as though you are side by side with them as they navigate the storyline. I received an advance copy without any expectation for review. Any and all opinions expressed are my own.

Lynn Lim says

I LOVE second chance love stories! Put that together with the author, Lucy Kevin/Bella Andre, and I know it is going to be a winner. I know that I will have a wonderful time escaping reality.

The Barefoot Wedding is the 3rd book in the Married In Malibu series. It is a standalone book, and can most definitely be read by itself. However, it was really great catching up on some of the characters from the past books. When I started reading this book, I literally could not put it down. I did an all nighter reading it. I love an emotional book, and this one brought them all out.

Let me start my review saying this, I wanted to smack Travis...repeatedly!!! How could this wonderful man be this stupid?!?! Amy LOVED you, you stupid jerk!!! Ok, I need to calm down. (Deep, calming breath) Ok, let me start over. This is a wonderful story of two people that fell in love. That is until Travis, the stupid jerk, did something "noble" and broke things off because he felt he was not good enough for Amy. Three years later they meet again. Both realizing that the feelings are still there, but Amy is afraid to trust Travis again. Travis and Amy are thrown together during wedding plans, and Amy starts to trust Travis again. When Travis..... Stop, no spoilers. I don't want to give any thing away. Let me just say this. If you love a story that is highly emotional, from the main characters, as well as the secondary characters, YOU WILL LOVE this wonderful book.

Thank you, Ms. Kevin/Andre for the wonderful hour of reading enjoyment you give to your readers. You are most definitely one of my jump out of reality saviors.

Thank you for reading my review.

Edit: My sincerest apologies Ms. Kevin. Life/time got away from me and I forgot to post this last month on release day.

Trudy Dowling says

I had been in a bit of a reading slump. Lucy Kevin you are my hero!!!! I thoroughly enjoyed the Barefoot Wedding. I read it until my Kindle died around 2 in the morning. I cared about nothing else this morning until I was able to finish. I am looking forward to reading again. Thank you.

Some might call this a second chance romance, but I call it a Third Times Amazing chance romance. Amy fell for Travis three years ago. He panicked and ran (okay he actually dumped her without explanation). Amy took her broken heart and fled to Michigan. You know your heart is crushed when you leave the Malibu beaches for the snow of Michigan. Her heart was cold.

Fast forward three years, although for Amy and Travis they have been slow and painful, Amy is back in Malibu for her best friend's wedding. She arrives a few days earlier to make sure things are going as planned. Travis opens the door of Married in Malibu with a look of shock. Amy had been sneaky!!!

Amy has no problem accepting that she loves Travis. Too bad Travis still thinks he doesn't deserve Amy. The author was a bit of a tease in this book. There are romantic moments. There are hints of a happy future until Travis panics again. He loves Amy enough to help her succeed in life. He doesn't love himself enough to allow himself to be happy.

It will take another love almost collapsing for Travis to get his stuff together. The question is will Amy give him another chance? How much can one heart take? Will she make him grovel?

Debbie Hanson says

The Barefoot Wedding

Married In Malibu #3

Lucy Kevin

????????

This is a perfect 2nd chance romance that has plenty of everything to keep you page turning and swooning. If not for the wedding duo themselves, or Amy and Travis or the Married in Malibu crew, they together tell a beautiful story of lost and found love.

Amy and Travis share a history and are about to be thrown, back into each other's company for a wedding. 3 years ago Travis didn't just break Amy's heart of fire it out, stomped on it, and walked away. And while she should hate the man, she can't deny the fuzzing feelings from that first glance, sadly not her finest moment.

Travis has always felt he was never good enough for Amy. But with a family who doesn't see her potential, Letting her down was everything he never wanted. With his own family demons, he walked away from Amy,

and now three years later he's about to spend a few days with her, to arrange last minute details for her best friends wedding taking place at Married in Malibu, a very prestigious company who caters for the rich and famous.

This company that is all about love, and forever will rekindle what years destroyed. But with so much water under the bridge, can Amy win the only man she's ever loved, or will his lack of respect for himself bring her down yet again? It will take a mountain, but Amy will do everything she can to get Travis to see he is the perfect man.

Leaving you from laughing and loving the pair, to wanting to throw something at Travis' head. The Barefoot Wedding folds all the feels, meaning that's perfect.
