Private Practice Samanthe Beck

Finalist for the 2014 RITAs: Best First Book and Erotic Romance categories

He'll teach her how to bring a man to his knees...

Dr. Ellie Swan has a plan: open her practice in tiny Bluelick, Kentucky, so she can keep an eye on her diabetic father, and make hometown golden-boy Roger Reynolds fall in love with her. But Ellie has a problem. Roger seeks a skilled, sexually adventurous partner, and bookish Ellie doesn't qualify.

Tyler Longfoot only cares about three things: shaking his bad boy image, qualifying for the loan his company needs to rehab a piece of Bluelick's history, and convincing Ellie to keep quiet about the "incident" that lands him on her doorstep at two a.m. with a bullet in his behind.

The adorable Dr. Swan drives a mean bargain, though. If sex-on-a-stick Tyler will teach Ellie how to bring a man to his knees, she'll forget about the bullet. Armed with *The Wild Woman's Guide to Sex* and Tyler's lessons, Ellie is confident she can become what Roger needs...if she doesn't fall for Tyler first.

Copy provided by publisher in exchange for an honest review

Before I begin my review, I had the pleasure of reading the last two books of the series *Private Pleasures* by Samanthe Beck and loved it. It is then I realized that I did not read the first book of the series so I knew I had to rectify that issue immediately.

If you are a fan of small town romance that is burning with sizzling chemistry, charm, and friendship then **Private Practice** by Samanthe Beck is definitely the book for you. Ms. Beck starts off this book by introducing Dr. Ellie Swan, the good girl who returns back to her hometown of Bluelick to open up her own medical practice.

Ellie has always been the girl with the big glasses and her nose in the books. She was the girl that boys in her town didn't take notice. So when Ellie got rid of her glasses and started wearing clothing that accentuates her curves, she knew she looks pretty but still was insecure when it comes to men. When Ellie overhears that the guy that she had a crush is single and on the market, she makes it her mission to make Roger take notice of her. She overhears that Roger is very sexual and so when Ellie helped out Tyler Longfoot for an emergency gunshot wound, she asked him in exchange for her help that he will have to educate and teach her everything about sex and kink.

What man would turn that offer down? And so Tyler was happy to teach Ellie on how to attract and pleasure a man. But as each sexual lesson progressed, Tyler found himself falling for Ellie. Will Tyler be able to compete with Roger? Or will Ellie discover that it's always been Tyler not Roger?

Private Practice was indeed your fun, sexy small town romance. This book had a little steam and lots of heart as Samanthe Beck was able to bring two unlikely friends together. I loved that Tyler was able to bring a little excitement in Ellie's life and show her that love is not something that can be learned but it has to be felt. And for Dr. Ellie Swan, letting go and trusting her heart is the only lesson that she needs to learn. So if you are ready to fall in love with a small town romance that is layered with heat, passion, charm, and eccentric characters then I suggest you give this book a try.

Dorsey aka ♥? Wrath Lover Reviews ♥? says

Sweet, fun, and enduring read, I loved the characters and the storyline. My only complaint is that there was no epilogue, with an epilogue this would have been a 5 star read for me.

Mo says

What a great debut novel by Ms Beck. Really enjoyed it. Good storyline, great humour, strong main characters. Dr Sparky wanted to up her "hotness" ante to try and get the town good guy and end up with the 2.4 children and the white picket fence. She ended up asking Tyler, the town's "bad" boy to tutor her in the ways of the bedroom and make her a more sexy person. The moments they had together were funny and sweet..... Most parts made me smile or laugh out loud and what more could you ask for in a book. Sex wasn't too bad either. A really good read.

Karla says

5 Fabulous Stars!! Amazing debut book! Fun, fun, fun!!

Ellie Swann (I think her last name was so appropriate) finally has a shot at snagging the man of her dreams, Roger Reynolds. She over hears his ex-fiancée, Melody Merritt, claim that Roger's need for kinkier sex is what broke up their engagement; she is just not that kind of girl, no lewd acts of sex for her...HA...at least not with Roger! Loved Melody! Anyhow, so Ellie has a plan, she's going to become the 'wild woman' that Roger wants in his bed, and finally get the man of her dreams. She has a book with step by step instructions...pictures too...and best of all she has, "*Hell-raising, cherry-popping Tyler Longfoot*", as her teacher!! It doesn't get much better than that! **YOWZA!!**

Some of the wittiest dialogue I've ever read! The writing was sharp, genuine, and humorous. The story flowed very well, and the characters were relatable and endearing. The premise for the book was funny and I was wholly involved from the first page to the last.

Ellie and Tyler were so enjoyable to read about, and have become one of my favorite couples. They were different in many ways, but in so many respects they were very much alike. She was naïvely sweet and determined, and he was incredibly sexy, charming and just a good man. The chemistry and passion between these two was explosive, but yet they cared deeply for each other.

One thing about this book that I absolutely loved, and I mean really loved, is there was nothing mean-spirited going on...NOTHING in the entire read. Usually when you read about the wallflower; class geek, meeting up again with the kids from the popular crowd, there is some animosity or maybe a history of teasing. The town bad boy has a bad rapport with the popular guy in school, but here that was just not the case. There was no bad blood going into or throughout the read. Not in their youth, nor as adults. No one was spiteful, jealous, or out seeking revenge. No drawn out breakups. It was nice not to have pages upon pages of angst, but rather friends looking out for one another. You don't see that often and what a pleasant change of pace it turned out to be!

This book left me feeling incredible and grinning from ear to ear. The ending was satisfying, a sweet HEA, but I like other readers, would have loved a little more, an epilogue would have been nice. So, Samanthe Beck...how about it...appease your fans and give us what we want. It's worked for me in the past, so I'm asking you, from all of us, how about giving us that epilogue? Is Ellie living her dream, the one she had in the beginning of the book, but now it's with the scrumptious Tyler? Are they living in a stately house overlooking the river and did they have black-haired, green-eyed mini-Tylers? Inquiring minds want to know!

No matter...still a great read and I can't recommend it enough. **Thanks to all my GR friends who read and reviewed this book, which allowed me to find it too!** I look forward to reading *Lover Undercover*, due out in April.

Tyler's tune...Bad Case of Loving You ~ Robert Palmer

<http://www.youtube.com/watch?v=7z9DwM...>

Doctor, doctor, give me the news
I've got a bad case of lovin' you
No pill's gonna cure my ill
I've got a bad case of lovin' you

edzkie♥§*.*§♥ says

“He’s assisting me with a personal project.”

Melody grinned. “Uh-huh, right. You couldn’t find your tonsils so he stopped by to help you look for them. Search to be continued this Friday. If you want my advice, you should have him hunt for something really important, like your G-spot.”

This is a fun read. The blurb sold me and my expectation rise up to the top.

Dr. Ellie Swan finally have a chance to sweep her Prince Charming to his feet upon learning his & long term fiancée split and hearing from her the reason why. Tyler Longfoot, Hot biker with a reputation of playboy/bad boy in their town intrudes Ellie house one night with a bullet shot on his butt cheek. Never expecting that asking the doc for help and discretion from the "Sparky" Doc will come with a price. Teaching her to bring a man to her knees.

For a debut novel this one a huge success. Right mix of humor, sweet and steam. The plot, the supporting characters and the classes was funny/interesting. Although a little predictable at some part but I enjoy reading this one. A feel good book!:P

“I love you, Ellie. I know I’m not the upstanding Prince Charming you always dreamed of—”

“The thing about Prince Charming is, he doesn’t exist. He’s a fantasy for little girls.” Now she lost her battle with the tears. They welled and flowed, and probably tracked mascara down her face, but she really didn’t care because what she wanted to say was way more important. “You’re the real thing—a grown woman’s fantasy—sexy, unpredictable, a little bit of a bad boy, but decent to the core. You’re everything I want. You’re everything I need. I’ve outgrown fairy tales.”

Anne OK says

4.5 AMAZINGLY ENTERTAINING STARS

A Bomb-diggity great debut! I fell for Tyler "Footlong" Longfoot, the sexy bad boy with a heart of gold, the moment he arrived on the page. He now stands tall among my favorite book boyfriends. And Doctor Ellie "Sparky" Swan was frustratingly endearing and lovable. Together they made a magical connection.

Although the "opposites-attract" trope isn't original, this time around it just seems sassier and sweeter and oh-so-enjoyable. Filled with charm, wit, and some outstanding laugh-out-loud moments, "Private Practice" is a delightfully rare and special find.

The characters, Ellie and Tyler, are well-defined and very lovable. The witty dialogue and clever interaction between the two is off-the-charts delicious. There's also an outstanding cast of secondary characters that pack a wallop all their own. And I dare not fail to mention that the sexual chemistry will satisfy the requirement list of any romance lover. It's definitely super-sonic charged.

One little nit-pik -- as much as I enjoyed reading this one, the addition of an Epilogue would have revved it up to a full 5-Star review for me. The ending left me begging for just a little peek into the happily-ever-after between Tyler and Ellie. With the addition, it would have been picture perfect.

Bravo Samanthe Beck! I can hardly wait for the release of your next book.

Special Note of Thanks to my Goodreads friend & recommender extraordinaire, Jill, for pointing me to this gem of a read.

To other Goodreads friends, do yourselves a favor and READ THIS ONE SOON!! It's just too good to miss.

Duchess Nicole says

This is a book that makes me remember why I started reading romance. There aren't any big surprises or huge moments, no sad tears or heartbreak... just a sweet, predictable romance, witty dialogue, hot sex and a genuinely likeable couple.

After a ten year absence, nerdy, dorky "Sparky" Ellie Swan moves home a different woman. Not only is she a doctor but shes' grown in to a beautiful, confident woman. Well, confident in all areas but one...the bedroom. So when the chance encounter with town playboy Tyler "Footlong" Longfoot gives her a bargaining tool, Ellie strikes up a deal. Ellie will throw aside a tiny bit of professional ethics if Tyler will teach her how to drive a man wild.

Ellie puts all of this effort into her 'education' in order to catch and hold the attention of the man she *thinks* she wants. Of course, our lady here can't hooch it up with one guy while pining for another, so the focus is

Tyler and Ellie. Tyler's had a somewhat careless life full of fun and women, but he's grown up and slowly matured into a responsible man, loyal to his friends and ready to live the life of an adult. While Ellie has always been responsible and old beyond her years, she's finally cutting loose but in such an orderly fashion, it makes for great fun!

**"If everything looks good, we can figure out a timeline and pin down the curriculum."
He nearly fumbled the supplies as he tucked them into the front pocket of his jeans. *The curriculum?* Leave it to overachieving Ellie to treat something as instinctive and elemental as sex like an academic pursuit. Though he couldn't explain precisely why, the notion of a specific lesson plan excited and terrified him at the same time.**

Ellie has a book meant to impart wild and wanton sexual knowledge to the unlearned woman, but she just can't seem to cut loose and let it come naturally. She plans each sexual encounter with Tyler so as to maximize learning potential. My favorite part of the book is the Chapter talk, ("tomorrow night, he was going to Chapter six the hell out of her") and how each lesson plan of hers gets basically thrown out the window when passion takes over.

This is a debut novel for this author, and she writes like a pro. It was the perfect length without any unnecessary boredom inducing angst and drama. What a satisfying, sweet and sexy story! I'm very much looking forward to more from her!

Wendy says

4.5 shining bright stars!

Tyler...GRRRRRRRRRRRRRRRRROWL!

Our hero Tyler has dark hair, green eyes all rolled into bad boy persona but so adorably sweet when it comes to our heroine Ellie. I can eat that man up. He is GORGEOUS. *sigh*

I adored this from start to finish. It's a light, fun and heart-warming read with great witty dialogue that had me giggling out loud and earning strange looks from hubby. This is a contemporary romance treat for one and all. Enjoy!

Arianna♦*SteamyReadsBlog*♦ says

Ellie is 28, she's a doctor and she recently moved back in her hometown to open a general practice and to keep tabs on her father who is ill. From as long she could remember she had a dream – to make Roger, the town golden boy, fell in love with her. One day, Ellie overhears that Roger broke up with his fiancée, because apparently he wants a nymphomaniac as a partner. So she decides to become what Roger needs and have some lesson in seduction. The only problem is that she needs a teacher.

She will find her teacher in Tyler – a sexy man with a bad-boy appeal – after she helps him with a gunshot wound. They make a deal, Tyler helps her with her “problem” and Ellie forgets about his wound, not filling a report for the police.

Tyler accepts and they agree to five lessons. What will happen next? You can only guess...

This was a cute, light story, very predictable, but enjoyable nonetheless. The story is sweet and funny at times and both Ellie and Tyler are likeable characters. Ellie is a woman who definitely knows what she wants. She is sweet, but very, very naïve. I really liked Tyler. He is sweet, caring, considerate, funny and loyal. He's perfect.

I also enjoyed the witty dialogue and the banter between those two.

Overall a nice, enjoyable read!

Mirjana **DTR - Down to Read says**

*****3.25 Stars*****

This was enjoyable, but I didn't love it.

It started off strong...they're first interaction was quite hilarious and overall I really liked Tyler...add in the fact that I'm a sucker for this type of trope and this should have been a homerun, but after a while Ellie started to annoy me.

She was completely oblivious to everything. At first it was funny and quirky how neurotic she was about becoming a "wild" woman and her babbling rationalizations were endearing...

Researchers could probably explain how the combination of thick black hair, riveting green eyes, and a slow, confident smile provoked some cascade of estrogen designed to fool the female mind into confusing a simple kiss with a merging of souls.

But that appeal quickly wore off. She would not veer off her path, her intended destination or the steps she thought it took to get there. After a while, it bothered me that Tyler was even making the effort to do "more" than her eye-rolling lessons.

I'm sorry, but NO woman has such a big crush on a guy (which by the way, they don't even know each other that well---she just built Roger up in her head as her Prince Charming based on the fact he was good looking, put together and came from a good family - OH, and she's trying to pounce on him mere weeks after he broke off a 10 year engagement!) ----where was I? Oh yes, the NO WOMAN part....NO WOMAN has such a big crush on a guy that she would choose to completely dismiss her own pleasure in order to learn how to

give an earth shattering blowjob.

Now, there are plenty of women who thoroughly enjoy this act...

However, I'm not going to solely focus my efforts on the job (pun intended) before me, wipe my mouth and walk away! It doesn't have to happen right away, or even that day....but, oh man.....you WILL return the favor in one way or another. If you got yours....I better get mine!

And, of course, Ellie was a natural talent....able to deep throat Footlong Longfoot (Tyler's nickname - self explanatory)....Ummmmm, sure.....she needs to learn how to be a sexual wildcat, but can perform a penile endoscopy no problemo!

So, unfortunately as the book wore on, little by little it started going downhill. Ellie's actions, inner dialogue and intentions just starting making me go all squinty from how much she was flip flopping. By the time we got to the end, I still didn't find it 100% believable that Ellie finally figured out what she wanted or who she was. And that ending?

Come on Tyler, I expected something better from you! That was cheddar on top of cheddar!

But, I will continue on with the series only for the simple fact that Melody's book is next and well, that kinky vixen intrigues me! Her and Fireman Josh sizzled my kindle in their brief appearance...and really, who doesn't want to read about a woman who knows what really matters in life?

If you want my advice, you should have him hunt for something really important, like your G-spot.

KatLynne says

Samanthe Beck's debut novel is perfect for a fun, steamy read!

You have small town livin' with all its quirkiness, a bad boy hero that is lovable, sexy as sin, and drives a Harley; a heroine that kept me in stitches and a cast of secondary characters that fit perfectly and added their own delicious delights. This author can take you from laughing out loud to steam in the blink of an eye. Perfect escapism with a happy ending! I loved it and can't wait for more!

Vikki ~ *squee* lite ~ says

This was a totally sweet, sexy, fun read. I just adore Tyler. What an absolute sweetheart. And Ellie was

adorable in a completely A-type personalty way. I know this plot line has been done before (though its not nearly as well used as the dominating billionaire theme) so there are no points for originality - but the execution was flawless.

Awesome endearing characters, great chemistry, some seriously laugh out loud lines.

For a fun, fast, entertaining read - highly recommended.

Christina ~ Brunette Reader says

Outlandish premise involving the lessons in seduction (and more), but the writing was very good, the humour worked, all the characters were well-drawn, the small town scenario was spot-on, the heroine was likeable and the hero was a dreamboat.

A fun, sexy, naughtily sweet and thoroughly enjoyable quick read.

Jill says

4.5 stars

Debut

Dr Ellie Swann is back in her hometown of Bluelick, Kentucky. Once considered a plain-looking, studious dork when younger, she's filled out her curves and with corrective eye surgery she's ditched the thick glasses. When she overhears a conversation that Roger Reynolds, the local golden boy, and his longtime girlfriend have broken up, Ellie decides this might be her big chance as she's always had a crush on him. But there's one little problem...

"His ideal woman has a whole lot of experience and very few boundaries."

Ellie's not inexperienced, but she's more a vanilla kinda gal. Later that night, when local badboy, Tyler Longfoot turns up on his Harley at her house with buckshot in his butt, she's required to notify the law about the incident. But Tyler's keen to keep it quiet as it was an accident involving one of his friends.

"C'mon Doc, what would I have to do to persuade you to keep this between us?"

Well, Tyler has a reputation with the ladies, so perhaps a trade-off?

"Let me sum this up, just to be sure I understand. You agree not to notify the sheriff if I promise to be your sex tutor?"

This is a fabulous debut! I have a difficult time finding contemporary romances that I love, but give me one with some clever dialogue, funny situations (that aren't slapstick or over-top) and I'm a happy little Vegemite. This delivered on all levels.

Tyler is an almost-perfect-for-me contemporary romance hero. Sweet, hot, tough, understanding, patient, dominant (yet not controlling!), funny...okay, you get the picture. And while Ellie was a little slow on the uptake at times, I loved her innocence and her adherence to the rules. For her 'lessons' with Tyler she buys *The Wild Woman's Guide to Sex: Tactics Guaranteed to Bring a Man to His Knees* and is determined to rigidly and religiously go by-the-book. Until Tyler upsets her best laid plans.

Private Practice has a certain SEP vibe to it. A slightly unbelievable premise, full of clever humour and just well-executed all round. There are just so many great lines and scenes. Absolutely loved it!

Steam: 3
