A Wilde Night Savannah Young (Pseudonym) , Karen Mueller Bryson

She's an award-winning winning actress and he's an average guy just trying to get by...

Fresh out of police officer training, newbie cop, Hunter Wilde, takes an off-duty gig working special events at the Tawnee Mountain Resort to earn a little extra cash to supplement his public servant's salary.

Katie Lawrence is Hollywood's hottest sweetheart. With her second Oscar win before the age of twenty-five she's all Tinseltown is talking about.

When Katie attends a wedding at the Tawnee Mountain Resort with the notorious bad-boy Olympic gold snowboarder, Devon Black, he's more interested in bedding the bridesmaids than he is in being with Katie.

So Katie tries to find solace in the personal security guard assigned to her by the resort...the reluctant Hunter Wilde. He's not impressed with Katie's stardom and he definitely doesn't want to get involved with a drama queen...but Katie manages to steal his heart when he least expects it.

A WILDE ONE is the third book in the OLD TOWN COUNTRY ROMANCE series. It can be read as a STAND ALONE NOVEL or as part of the SERIES.

Margaret says

This was a quick, fun read that I devoured in one sitting. I just love books like this that make me smile and keep me believing that there truly is someone out there for everyone and that happy ever afters really do exist.

The story was really very simple – two people who seem to be total opposites of one another find out that they really have a lot in common when they look beneath the surface, and despite all the external factors that “should” keep them apart, they realize that in the end, without love and each other, everything else doesn't really matter.

I'm a sucker for small towns and tight-knit families, and Old Town and the Wilde brothers were a perfect fit. I loved the family bar, Haymakers, the fact that the brothers still performed as a band together on occasion, and also the quirky, colorful characters that always seem to be residents in these small towns – Izzy being a perfect example. The family dynamic between the brothers was just awesome, and I look forward to reading the other books in the series to learn more about all of them – from their parts in this book, I can't wait to find out more!

Although I found myself frustrated at times with Katie – hello, write your own story and play your own part, not follow the script that someone else has laid out for you – I immediately fell in love with Hunter. I loved the fact that he didn't hold back his feelings and didn't play games – definitely one of the good guys! He stood up for his principals and was there for Katie to help her feel “real” when she was beginning to lose herself in the world that had been created for her. *Sigh*, just a nice guy!

This is definitely a good book to pick up when you want a quick read with fun characters that will keep you smiling throughout.

I received this book from the author for an honest review.

Amazeballs Book Addicts says

A Wilde Night is Book three in the Old Town Country Romance Series. It can be read as a standalone. Each book follow one of the four Wilde brothers. The Wilde's are a close knit family so in each book you do get updates on the other brothers. A Wilde Night is Hunter Wildee's story.

Hunter is a sexy down home country boy. He is very committed to his family, which consists of his brothers. He also seems a bit of a workaholic. He is a police officer, works guard duty in his off time at Twanee Mountain Resort, helps his brothers run their bar, Haymakers, and occasionally plays in a band with his brothers. Hunter is a little different than a lot of the guy characters in the books I have read. He is not a bad boy or a player but he is still makes for a great book boyfriend.

While working at Tawnee Mountain Resort, he gets put on guard duty for Katie Lawrence. Katie is a Hollywood star, who is at the resort to attend her boyfriend's brother's wedding. Her relationship with Devon Black is more for publicity. Katie and Hunter have chemistry to right away.

I loved to read how Katie and Hunter's relationship grows. Hunter brings Katie to Haymakers. She wears a disguise and no one recognizes her. I loved that part because it gave Hunter's family a chance to get to know the real Katie. There are some ups and downs for Katie and Hunter. I liked the ending but I was a little surprised by it.

A copy was received for a review.

Lustful Literature says

**** DEBBIE'S 4.5 STAR REVIEW ****

I was excited that I was going to be able to review this book. I have read the other two in this series and loved them. Let me tell you once I started this book there was no way I was stopping until I finished it. I love the author's style of writing. She has a way of grabbing you and sucking you in.

The characters are well written and extremely likeable. You can't help but fall in love with each and every one of them. The plot is realistic and flowed beautifully.

"I raise an eyebrow. "You broke the law so you could see me again?" She shrugs. "You're a cop. At least I didn't rob a store or something. I can't help but smile. It's about the dumbest thing I've ever heard in my life, but it may also be the cutest."

This one is about Hunter Wilde, who is the youngest brother and a rookie cop. Hunter does security on the side and after reporting for security duty ends up being told he will be "America's Sweetheart" Katie Lawrence's body guard for the evening. Let me say the chemistry between the two was fantastic and I loved the banter between them.

Hunter is intense, honest and everything you would want in a man. Don't get me wrong, he has a dirty little mind and is sexy as h***.

"When I feel my d twitch in response I remind myself that I'm a cop working security and she's apparently some superstar."***

"I'm not a hit-it-and-quit-it kind of guy. I'm not like Jake. I'm more like a beaver that mates for life."

I absolutely loved Katie “Kat” Lawrence. You could not help but feel sorry for her. Her life turned into something she did not recognize anymore. She wore what she was told and acted as she was told. She felt like she had no control over her life until she meet Hunter Wilde and realized he could care less that she is an actress and he wants to get to know the real Kat.

“This is Kat. A laid back girl from the country. A girl who likes to chill out with a beer on a Friday night and listen to country music.”

The book is filled with humor and angst. I loved that the author didn’t fill the book with tons of useless drama. It made the characters and plot more realistic. I loved that all the Wilde boys are in this one so you can still see how things are going with them. I am supper excited because I cannot wait for the next one. I have a feeling that one is going to be one intense ride!

Tina Lee Harris says

4 stars

After watching his brothers find their happy ever after, Hunter just might get his chance. But when the girl that steals his breath away is none other than America’s sweetheart, Katie Lawrence; can Hunter be the one that Katie needs in her life too?

Hunter the youngest of the Wilde brothers, has always done what he dreamed of doing, becoming a cop. He helps out at the family bar, Haymakers and plays with his brothers in the band too. When he takes an off duty job as security at Tawnee Mountain Resort little does he realize that his simple life is going to become complicated.

Katie Lawrence left home to pursue her dream of acting. As she has become America’s Sweetheart, winning 2 Oscars, she still longs for the one thing that Hollywood can not give her, simpleness. She wants to just be an average girl with no cares in the world. But the demands and pressure of the limelight causes her to have to put on her fake self.

When Katie and Hunter first look at each other, the attraction is undeniable. But Katie is there with her Hollywood boyfriend, Devon Black. Hunter is just the security detail nothing more.

I enjoyed getting to see Hunter and Katie put everything behind them for one night. They choose to hang out at Haymakers and be a couple of normal people. I loved seeing Hunter’s character grow. From having read this series from book 1, I have a soft spot for him.

Then a surprise at the end of the book making you realize that not all dreams as a child are the ones that you are destined for. Dreams can change.

I am looking forward to the Jake’s and Harley’s story. And was grinning when I realized that Izzy will be getting her own book too.

Leslie Clifford says

Hunter Wilde was only there to do his job. He was supposed to be guarding Katie Lawrence not falling in love with her. Katie is a two time academy award winner and to the outside world her life looks perfect. She has the perfect boyfriend, fame and fortune but nothing is as it seems. Katie's life is out of her control and the perfect boyfriend is a cheater and liar. She has not felt like herself in a long time. When she first meets Hunter it is almost like he can see past all the facade and see her true inner self. Hunter knows he cannot offer her the life that she is accustomed to but the chemistry between the two is undeniable. Will these two be able to get past their differences and make a future for themselves or will the outside world be too much to overcome? I loved this story. It was a light romance that unfolded so easily. There were many obstacles in their way but they were each met with a little humor and southern charm. My review is provided for Sexy Ways of Reading.

books are love says

Yay Hunter gets a girl. A actress no less. Hunter is the shy one. the quiet reflective one that is the Beaver and not the chimpanzee in dating. He mates for life and like all Wilde men he falls hard and fast for the girl.

this book centers on Hunter and Kat. Hunter seeing what he would do for a girl and Kat figuring out who she is and wanting the guy. Hunter's family going through changes-tucker's news wow and Cooper and Riley's wedding coming up even Jake bringing Harley home is big.

Hunter is a security guard when not working his day job as a cop. One night he is asked to guard Katie Lawrence (Kat). thinking she is just another hollywood starlet he scoffs at it but as he got to see the real Kat he liked her. Really liked her and he was attracted to her. Which fits his sweet persona. The one who is there and open. Who gives people a chance.

Kat is at the resort for a wedding with her star boyfriend Devon Black. Feeling as if she doesn't know herself anymore, she meets Hunter who has her unnerved. She sees him see past the facade and it scares her. He sees the fun loving girl from P-ville. She has alot to deal with though. Her cheating boyfriend for one and her career for another. But when Hunter touches her and protects her she goes over the moon for him.

they think it will be only one night. Resigned to this Hunter gives her everything. And that is himself. For him having her walk away is hard for he is a Beaver. Such a sweet amazing guy. For her it changes her world. She doesn't want to walk away but must to keep his world in tact. But attraction has its own rules and they come together again this time though they are not so lucky. Kat is discovered and the press goes gaga. she tries to protect him and in the process hurts him.

Hunter being Hunter respects her decision until Izzy yay Izzy you crazy girl you. She has him see what is good for him.

This is a book of two very sweet kind people from two very different worlds finding peace, safety, happiness and love with each other. Hearing each person's POV is great for it helps you see what they are thinking and why they react the way they do. Kat is so lost and trying to find her way in a superficial world. Hunter is trying get the girl of his dreams and floundering in how to do this.

A wonderfully sweet and fun book of their story that puts a smile on your face the whole time you are reading.

Donna Porter says

Katie Lawrence is america's sweetheart. She has already won two oscars for her films, even though she wasn't the main star. She is in Old Town, New Jersey with her boyfriend Devon for his twin brothers wedding. Hunter Wilde is a cop in Old Towne. He also does security work in his off hours as well as works at their bar, Haymakers. Hunter is on security for the engagement dinner of Devon's brother where he sees Katie. He doesn't watch movies so he really doesn't know who she is. Her manager decides she needs a body guard to keep the photographers from her so Hunter's boss tells him he has the job. He really isn't very thrilled about it, but he can't get them to put anyone else on the job. When he meets Katie he sees a sadness about her. Devon treats her like dirt and cheats on her on the time. Katie finally breaks up with Devon and Hunter won't let him in her room. Katie tries to take Hunter's shirt off and he stops her. He tells her he is not a one night stand type of guy. Actually. Hunter has never went all the way with a girl. He is twenty two but he feels he needs to wait for that someone special. Once he gets off duty he goes to his police job. He catches a speeder in town and finds out its Katie. She wanted to see him again. He asks her for a date and makes brunch for her. They finally get together and have sex. Only to Hunter this is serious stuff. Over a period of time they see each other one more time and they realize they have feelings for each other. How can a small town cop win the heart of a movie starlet. Read this one and find out. This continues also with his brother and their girlfriends from the first book. This book does contain sexual scenes and it is not for everyone.

Becky says

I love the Wilde Brothers and I was excited to see that I was going to be able to read Hunter's book. We don't know too much about Hunter, except that he is a police officer and he is the quiet one in the bunch. Well, be ready, because Hunter is going to knock your socks off.

You can see from the beginning that he has a thing for Kat aka Katie (award winning actress). He can see that she needs to be saved, if not from herself but from the crazies that are surrounding her. Kat knows that Hunter can see straight through her and see the real her, not the image the studios want her to portray. In the end, they know that they can't fight what is going on, but can they be so far apart in their lives, but so close in their hearts.

I may go on a limb and say that Hunter and Kat are my favorite Wilde couple so far. They are the most down to earth and so passionate in the way that they feel. They have the most obstetricals against them, yet they come out glowing in the end. Hollywood can be a place that strips you of yourself if you are not careful, and Kat is lucky that she has people around that are there to protect her.

I love that we got to see some classic Wilde Brothers action on the stage and brotherly love that goes on forever. You know you always have someone looking out for you in that family.

Holly Price says

This was book 3 in the Old Town Country Romance series and while I was able to read and enjoy this book as a standalone, I got the feeling I would have enjoyed the story and other characters more by reading the

other books in the series. This was a short, easy read without a lot of angst. Hunter is a 22 year old cop in Old Town New Jersey and he's also a part time security guard, drummer in the family band and bartender at the family bar. He's always so busy that he's never had a lot of time for romance. He's a good looking guy that's spent quite a bit of time in the gym getting ready for the police academy.

Katie Lawrence is a 2 time Academy Award winning actress known as America's Sweetheart. She's 23 and she's been in a relationship for 4 years with a serious Hollywood ladies man. Hollywood is taking its toll on Katie and she sometimes wishes she could go back to the simpler times as Kat from New Jersey, but too many people are counting on her.

When she heads back to New Jersey with her boyfriend for his brother's wedding, she's flooded by the paparazzi and the resort assigns her a bodyguard.....Hunter. When Hunter and Katie initially made eye contact, there was something elemental there, like he could see through the mask and to the real Kat. He dismissed it as her being an actress, but that didn't last long. Hunter was able to see how much strain Hollywood puts on Katie and when she started letting him see the real Kat inside, his heart was pulled to her. He stood up to her boyfriend for her. When Hunter had to leave Katie that night to go to work, Katie knew she had to see him again. She snuck out and sped through time in the hopes of getting stopped by police officer, Hunter. She was successful and they ended up exchanging numbers and making plans for the next day. Instead of going to the wedding, Hunter and Kat spent the day together. They had brunch, she met his family, saw his band play and even worked at the bar as a waitress. She didn't go to the wedding with her boyfriend and everybody was going crazy the next day.

Hunter and Katie knew that they only had that night together, but neither of them are ready for it to be over. How could a famous Hollywood actress and a small town cop end up together, though?

I thought this was a cute story. We got both Kat and Hunter's POV, so you knew how they were both feeling about their time together. Katie reminded me of Jennifer Lawrence in a way and I love her, so that was in her favor. Hunter was unlike most guys in stories. He was all about his family and career and a virgin, which was a first for me. I am not a huge fan of instalove, so it was a little difficult for me. Was it love at first sight? No, but it was pretty fast and I did wish it would been a little longer and built up to the relationship more. Overall, though, it was a sweet and short romance and those really hit the spot sometimes.

Niccisbookblog says

MY REVIEW.

I totally love the Wilde brothers and all there stories are so very good. The Wilde brothers are definitely a group of men that I would love to meet.

The story was alternately told between Katie and Hunter, so we get to hear both their points of view.

Hunters story is so sweet, he is the quiet brother who stands in the back ground happy for his brothers to take front of stage. Hunter is super cute, sweet and just a perfect guy in every way.

Katie was a sweetheart and Savannah made her someone you could easily like and for sure the right girl for Hunter to fall in love with.

I liked the way the relationship between Katie and Hunter took a while to get going, as they took there time to really get to know each other as people, even though the attraction between them was undeniable, and there chemistry was off the charts smokin' hot.

I liked that the story still included the other Wilde brothers so we got a little more story from them, it was nice to catch up with them and how there relationships are going.

All of the Wilde brothers know their priorities It is family first closely followed by the women they love, making for a great dynamic.

I cannot wait to read Jake's story but then i will be kind of sad as he is the last brother!

Another great read from Savannah Young.

Gloria Herrera for As You Wish Reviews says

I have to say I have enjoyed the Wilde brothers and their antics. They are all handsome and muscular, co-own the Old Town local bar Haymakers, and play in a band. That is where the similarities (other than the Wilde name) end. They all have such unique personalities and life experiences! Each book can be read as a standalone, but you get so much more out the stories if you read them in order. These are such endearing stories, they have become one of my favorites.

This time we are reading about Hunter. He is the quiet, studious one. He is so responsible. All these men have survived losing both parents by sticking together and helping each other. Hunter is the one who respects women and has never slept around. Meeting a movie star and acting as her bodyguard does not alter his view of keeping life simple and without drama.

Little does he know the impact meeting Katie will have on his life. She was born in a small town just like Old Town. The Hollywood life and glitz now controls her life but she still longs and misses her old uncomplicated life as a small town girl. Meeting Hunter and his family reminds her of what is important in life and misses the most. But how can she change her life and go back to a much simpler life? Can it possibly work out between them? That one night with Hunter is a night she will never forget.

The Wilde men fall fast and fall hard. So far 3 out of the 4 brothers have found their mate. Jax is the last to hang single and free. I expect the next book will tackle his life and the revolving door to his bedroom.

Anja says

She's an award-winning winning actress and he's an average guy just trying to get by...

Fresh out of police officer training, newbie cop, Hunter Wilde, takes an off-duty gig working special events at the Tawnee Mountain Resort to earn a little extra cash to supplement his public servant's salary.

Katie Lawrence is Hollywood's hottest sweetheart. With her second Oscar win before the age of twenty-five she's all Tinseltown is talking about.

When Katie attends a wedding at the Tawnee Mountain Resort with the notorious bad-boy Olympic gold snowboarder, Devon Black, he's more interested in bedding the bridesmaids than he is in being with Katie.

So Katie tries to find solace in the personal security guard assigned to her by the resort...the reluctant Hunter Wilde. He's not impressed with Katie's stardom and he definitely doesn't want to get involved with a drama queen...but Katie manages to steal his heart when he least expects it.

A WILDE ONE is the third book in the OLD TOWN COUNTRY ROMANCE series. It can be read as a STAND ALONE NOVEL or as part of the SERIES.

Kathleen says

Welcome back to rural Old Town, NJ, home of loud trucks, cold beer, country music, and the hot Wilde brothers!

In each book of the Old Town Country Romance series, Author Savannah Young weaves an entertaining romantic tale that tells the story of each of the four Wilde brothers: Cooper, Jake, Tucker, and Hunter.

In *A Wilde Night*, Author Savannah Young once again calls upon her NJ roots as the reader is transported back to the small rural town of Old Town, NJ, where this time the focus is on Hunter and Kat's story. Told in the first person narrative, the reader follows Tucker and Kat as their heartwarming and emotional romance unfolds like a classic country song.

Hunter is your classic small town country boy, who is a rookie on the Old Town Police Department.

Katie Lawrence is a small town girl from Phillipsburg, NJ, who is a two time Academy Award winning Hollywood actress and America's Sweetheart. Katie hasn't been in control of her own life since she became one of the hottest actresses in Hollywood six years ago. She wishes she could go back to the simpler times back home in NJ when she was just a laid back country girl named Kat.

Katie and Devon Black, her on/off Olympic gold medalist snowboarder boyfriend arrive in Old Town, NJ to attend the wedding of Devon's twin brother Danny at the posh Tawnee Mountain Ski Resort. While off-duty from the police department, Hunter works a security detail for the special event at the resort as Katie's personal security / bodyguard. When Devon is caught having sex with one of the bridesmaids, Katie decides to ditch the wedding and spend the weekend with Hunter at his family's bar, Haymakers, where he and his three older brothers' band Wilde Riders have a gig. As Katie becomes Kat, sparks start to fly between her and Hunter, but can something more come out of their weekend together, even though they come from very different worlds?

I absolutely loved reading Hunter and Kat's romantic story. You can't help but get drawn into their lives, and embrace the beauty of how their relationship quickly develops. I loved the protective instinct that Hunter has for Kat, his kind and tender heart simply made me smile. With drama, humor, and romance, Hunter and Kat's connection is based on being small town people, one that tries to overcome the media frenzy that is Katie's Hollywood life, but can they have a future together?

Hunter and Kat's story is about two people who learn to let go of their doubts about being from different worlds in order to find the courage to open up their hearts to love. Not only are Hunter and Kat perfect for each other, they simply complete each other!

I would be remiss if I didn't mention the brotherly bond, support, and antics of the other three charming Wilde brothers and their girlfriends, that is once again interwoven in the storyline like it was in the other books in the series. Even though this is the third book in the series, it can be a stand alone read as the author does interweave the other Wilde brothers' backstories within this storyline. But do yourself a favor and read the books in sequential order so that you can fully appreciate each of the sexy Wilde brothers individual stories, you won't be disappointed!

A Wilde Night is an emotional and romantic tale that has a fun cast of characters, witty and humorous banter, drama, and a sweet and spicy romance set to a country theme.

Disclaimer: I received a copy of the book from the author / publisher in exchange for my honest review and participation in a virtual book review event hosted by Reading Addiction Virtual Book Tours.

Nicole says

***My Review* 5 Stars: A Crazy Awesome love story**

I received this book in exchange for an honest review. I have not read the other books in the series, but I am looking forward to checking them out.

I can't say I completely understand why I love this kind of story. The Hollywood starlet that doesn't really want to be in the spotlight appeals to me. A cop who is a drummer in a country-western band... what better combination could there be? The chances they would meet and fall in love? Probably slim to none in real life, but somehow, the writer manages to make their pairing totally believable. You will root for them to find a way to make their relationship work because when they are apart, your heart breaks along with theirs. The chemistry between the two is hot and the way the writer describes their feelings and reactions to each other has your pulse pounding right along with Kat and Hunter's. This was a relatively quick book to read; I made it through in just a few hours. Katie/Kat is a very likable character, and why wouldn't she be, she's America's Sweetheart. And she feels the pressure of being in the limelight, longing to have just a little bit of decision making control over her own life. Hunter is a guy that will just melt your heart. The attraction is very hot and steamy. I didn't feel at all like the story was rushed, even though I was racing to get through it to see if they ended up together, and the ending and epilogue were perfect. I felt satisfied at the end of the story, which is not something I always feel at the end of a love story. If I had a paperback copy, I probably would have fallen asleep clutching it with a smile on my face.

Rob.C. Rob.C. says

Having read the previous two books, I was looking forward to reading Hunter's story. He seemed like the cutest of the Wilde brothers, even though he didn't appear often in the previous books.

I liked how he and Katie connected straight away, with only one stare, and how he didn't buy her movie star façade but managed to see behind the money and the clothes.

Katie sounded like a nice heroine at first, torn between her life as a movie star and her country girl personality. After a while, though, I got a little annoyed by her constant "I'm a movie star, I can't be with a country cop even though I love him". Besides, she kept saying how she wished she could still be Kat from Phillisburg but she couldn't leave Hollywood. Until the end of the book I failed to understand whether she really wanted to be a famous actress or not. Most of the times she sounded like she was forced to be in the movie industry, and she would've preferred to go back to being a country girl.

Hunter was cute. He's the typical mama boy: the youngest of the Wilde brothers, his siblings always look out for him and when they see him with Kat, they're worried she could hurt him. I found his need to be taken seriously by his brothers rather sweet. He didn't want to be considered the baby of the family, and wanted them to understand he was a grown man who could fall in love with a woman, even though this woman happened to be a famous movie star and could potentially destroy his career.

What didn't work for me was the constant "We're in love, but we can't be together because our lives are too different" throughout the book. This dilemma made the story feel dragged at times, when nothing was really happening. Another thing that didn't work too well for me was the fact that at times it felt as if all their

relationship was about was sex. Whenever they were together (the day after they met and then when she came back to New Jersey) they didn't do much of anything else. I wouldn't have been surprised if this was Jake's story, but with Hunter I'd gotten the feeling that he was the cutest of the brothers so this felt a little odd at times.

I liked that Riley and Cooper (book 1) were included in the book, and that we also got a little inside scoop about Tucker and Gracie (book 2). I hope we'll get to witness Riley and Cooper's wedding in the next book, as I was really hoping it would be in this one but it wasn't. Wilde Riders (Cooper and Riley's story) is still my favorite in the series.

Anyway, apart from my personal opinion on some topics, this is a nice story about finding the happy ending even when it seems impossible because of life getting in the way, and if you've read the previous books in the series, you should read Hunter's story too.

The books are standalones, so if you haven't read book 1 and 2, you can still read this one and understand everything without any problems.

I received a complimentary copy in exchange for an honest review
