Crown of Betrayal

Graceley Knox

Crown of Betrayal Graceley Knox

Now that the threat to Ever is imprisoned and gone for good, she can focus on what really matters: getting rid of the goblins living in her house as “protection” and getting back to work capturing rogue Fae for the Magical Enforcement and Containment Agency. Too bad fate doesn’t agree with her plans.

Ever’s mother is still missing, and Ever and her crew must find an ancient race long believed dead. As questions pile up and danger creeps closer, Ever can no longer deny the pull Dare has over her heart. And her body. As they forge a new bond, betrayal strikes, and it’s closer to home than either of them could have imagined.

Trouble stirs. Alliances fall. The only thing that binds them together is the trust they’ve put in each other and the emotions Ever refuses to name. Everything starts to crumble, and those Ever protects are no longer free from danger. Will she keep those she holds dear safe? Or will she be left to pick up the pieces?

Amanda Mensching says

Great Read!

What a great book! I couldn't put it down. Ever, is no damsel. She is born leader with an crew to support her! Never thought I would be attracted to a Goblin before. Dare oh Dare! The book is Hot, creative and exciting to read. Sucks you right into their world! Highly recommend.

Angel Payne says

Oh my freaking LORD. Talk about a stunning sophomore book. I had such high expectations after devouring "Mark of Truth", and every single one of them was blown OUT OF THE WATER with this twisting, turning, sweeping, sexy, and exciting sequel. Honestly, reading Graceley Knox is like a fantastic new discovery at every turn. Ever Leath is Anita Blake given a fresh new voice, with a sweet spicy tinge of Sookie and Claire Fraser tossed in for good measure. As the man fated to love her, Dare is bold but humble, confident but sensual. Blend them into a plot that takes the entire "crew" into fantastic new realms, and you have a book that captivates even us "non PNR" people. So freaking good!

Runningrabbit says

The Plot Thickens

This second novel was more cohesive than the first, with a better flow despite the frequent spelling errors and need to improve some of the structure. The book continues on smoothly remaining true to the storyline. The full team of characters strongly support the mood of the novel as the plot and political maneuvering deepen. I'm definitely continuing to the next book.

Elisa says

Pretty good sequel.

The story itself and this book's plot could easily deserve 4 stars or even 5, but I have a few issues with the execution.

What I liked:

- all the intrigue and the slowly unveiled prophecy and mystery
- the setting in the fae kingdoms
- how Ever's relationship is developing, and the fact that it is woven into the plot and not the other way around
- the fact that the secondary characters had a bit more of a role

What I didn't like:

- the typos/grammatical errors

- the cringey language during sex scenes (less, but still too much)
- the world building could use some work. It's faerie FFS, let's paint a bit of a picture, shall we? It sounds about as magical as landing at JFK.
- Ever's language and attitude, which is frankly too much at times. I do a fair amount of swearing myself and I totally get the whole "I'm my own woman, and I don't give a crap if you like it or not" but honestly, the way she expresses herself feels like it was overdone for shock value at times, and what sucks is that it's distracting. It could stand to be tuned down a bit. I believe in the expressive value of a well-placed "fuck", but if one starts sounding like she went browsing through UrbanDictionary.com for dialogue inspiration, I think that's a little much.

Swear words should enhance the expression of the concept, not distract from it.

So there ?

I am going to go straight into the third book because I want to know WTF is going to happen with the whole mess of prophecies and crazies and all, and I have no time to waste! Only got KU for 2 1/2 more days!

Marie Brown (Marie's Tempting Reads) says

Marie's Tempting Reads ARC Review:

We got ourselves an obsessive, magical, jam-packed with action, paranormal romantic phenomenon with Gracely Knox's second Wicked Kingdoms Novel, Crown of Betrayal! I am in true amazement over how thrilling the plot, characters and storyline is. Its completely fresh and utterly sexy with a wicked charm that defies most paranormal romances. That right there, is what draws me in. That and the fact our heroine, Ever, is a kick-ass woman that is tough, compassionate but takes NO crap! I love HER! And Dare...OMG this Goblin has me all sorts of weak in the knees and has me sighing over everything he does. He has an appeal that is just...mouthwatering!

Crown Of Betrayal moves at a clip pace that keeps getting juicier and has twists that I found myself eager to find out how they turn out...and that ending...Perfect freaking cliff hanger! Dare and Ever are the ULTIMATE BAD-ASS couple that will be a VERY powerful couple when things are settled. I have NO DOUBTS about THAT!

Crown Of Betrayal is beautifully written. Gracely Knox is a talented author that brings The Wicked Kingdoms to life as well as every fae and goblin and creature. Its one of the BEST books you could pick up this summer! I give it FIREWORK INDUCING FIVE SHOOTING STARS!

Guilty Pleasures Book Reviews says

I am so in LOVE with this series! Graceley Knox has bowled me over with her amazing world building. I want to stay immersed in Wicked Kingdoms and live there awhile - with Ever's protection of course. She is K.I.C.K.A.S.S.

There is a lot happening in this book. It starts off right where book one ends. There is no slowing down Ever and her crew. Crown of Betrayal has a well thought out and put together plot with many twists and turns that make the journey so sweet. I have fallen in love with all of these characters (well, the good gals/guys). There

are some seriously BAD, bad gals/guys too. I've enjoyed watching them get their due.

The Wicked Kingdoms series is so much more than an awesome world to be in. The love story between Ever and Dare is intense, sweet, and hot - all at the same time. I love that their story is part of the over arching plot of the books. Theirs is definitely a story that takes more than one book to tell. You won't be disappointed.

Crown of Betrayal is a darker read than Mark of Truth (Book 1). Ever has many trials to go through and overcome. She and her crew are the very essence of what friendships should consist of: honesty, love, and loyalty. Friendship that we all hope to attain and consider ourselves lucky when we do.

Definitely read the books in this series in order. I highly recommend both. I'm looking forward to Book 3. I can't wait to see what happens next! This is a series that I will read time and time again.

Review copy provided for a voluntary review.

Jaime (Two Chicks on Books) says

Better than book 1! I like that this one read more like a fantasy and less like an urban fantasy! On to book 3!

Diana says

I loved this book!! I couldn't put it down!! I'm happy that Ever is finally giving Dare a break, and letting him in a little. I can't wait for the next book!

Ani Bari says

More kickass Ever, more action, more loyalty, more frustration at big sexy goblins.

You leave Ever in Book One with more questions then answers and Book Two strives to give you some before the last page. Dare is persistent and sexy as hell, her MECA team and family cause you to sigh with happiness at how close and loyal they are. Dagan and Dax put smiles on your face. Basically you jump straight back in as if you never had a break.

More intrigue and surprises, not sure you get answers but Knox had me loving every second. Knox has me hooked and I just want to get my hands on the next book!

Erin Thornton says

Loved it!!

I'm falling in love with this series and all the characters. Dares softer side is becoming a fun time. Can't wait to keep reading!

Naughty Beauties Book Blog says

I had the greatest pleasure to receive a review copy. Let me tell you, I could not put it down. The only disappointment is I completely read it and want more.

Ever is back and her struggles with the Fae and it's world are not making things easy for her. She's experiencing betrayal from every corner possible. They only ones she can loyally count on is her team. They have her back and go to war with her.

Make no assumptions that you are going to know exactly what is going to happen. When you think the clues are taking you steps further into finding the truth, Bam! The paranormal world turns and it is taking you on another chapter of adventure.

Without giving too much away, this story has thrilling adventure, hot and sexy characters, and a great smooth plot.

Graceley, you are a wonderful writer and I cannot wait for the next installment. Thank you for the opportunity and readers you need to seriously pick up this book. Get your copy now!

Lisa says

Better than the first

This continues right where the first book ended. I liked it better, it was more tightly written and the plot progresses well with a crazy prophecy and betrayal at most corners. I loved Puck, the intro of the Druids and we get a peek into the Dark Elven Kingdom, which I really hope we get more of. I'll definitely be reading the next one when it comes out. I think this author has good things ahead.

Promiscuous Book Blog says

Love it...but...

Ok, so back where book one left off, Ever and her band of misfits, along with Dare and his brothers are trying to protect everyone but stuff is just not working. Everything that can go wrong obviously does, but with the hilarity of most situations I forget when I'm supposed to be mad, lol. I loved these characters all over again, I didn't get bored and want to give up I just needed to know what exactly was going on.

Now...the bad part... I excused it in book one because it was more of an introduction to everything. I went in this knowing it was a series so I only wanted character development...well we got that but I feel like there's

never any answers for anything... Ever finally accepts a relationship with Dare but even a blind man can see there's something more to it... Ever keeps thinking "I need to ask them about this and that" but never actually asks or anything.. it's a lot of back and forth. Hopefully book three can finally give us some insight.

Regardless it's worth the read, you kind of have to go through the sand to reach the beach...not sure if that makes sense lol but yeah awesome read..?

Rhea says

Great book, I can't wait for the next one to come out.
