Caught by You Kris Rafferty

It takes a specialized task force to bring down the most notorious criminals, FBI agents with the guts to go for the glory, and the smarts to know what rules to break—for justice and for love . . .

Avery Coppola is a woman on the run—not from the law, but from the lawless. Her ex-husband, mafia boss Dante Coppola, never forgets or forgives, especially since Avery stole incriminating files from him. For now, she's found sanctuary in the North Country of New Hampshire, working as a waitress to support herself and her

ten-year-old sister. But not only are Dante's men on her trail, so is the FBI . . .

Special Agent Vincent Modena is at the end of his rope. After a year-long attempt to infiltrate the Coppola organization, his only chance to ensnare the crime lord now lies with the ex-wife. After locating her, Vincent makes contact, unafraid to use his good looks to capture Avery's attention. But she turns the tables on him with an intoxicating combination of innocent beauty . . . and the mind-blowing skills of a stone-cold killer.

On the run from Dante's hit men, Avery takes Vincent on a wild ride of danger and deceit, hiding a secret that could destroy Vincent's trust in her—and in himself . . .

I received a copy through a Goodreads giveaway.

A face-paced thrilling ride from beginning to end, Caught by You has it all. Guns, knives, contract killers, FBI agents, and that fish - you'll have to read it to know what I mean. The back and forth between Vincent and Avery is perfection. With plenty of action and tension in every turn of the page, I broke a lot of promises to myself to pause at the next chapter. the second book can't come fast enough.

When Avery Coppola learns that not only are her ex-husband's people after her but also the FBI, believing she has files that could take her ex-husband and mafia boss Dante Coppola down forever for his crimes, she's forced to go on the run again. Yet, there's one man that won't seem to allow her to keep running. Will she put her trust in Special Agent Vincent Mondena or will she lose the man she's coming to care for more than she ever thought possible?

What a wild and thrilling ride Ms. Rafferty takes readers on in this first book of her Secret Agents series, which was action-packed and had me reading quickly determined to discover what obstacles the hero and heroine would have to overcome to be together. Certainly, Avery is suspicious of everyone after all that she's been through and because if anyone discovers her secret than she could be in big trouble. Will Vincent learn the truth? However, it was the moment that the hero and heroine meet where this story gets very exciting, as no one is more determined to protect the heroine than Vincent. Will Avery let down her guard so the hero can help her?

As for the main characters, I loved them both immensely because of their back stories. Everything that's happened to the heroine while being married to a mafia boss has made her resilient, courageous and determined to do everything in her power to protect her sister. Will Avery be able to keep her sister safe? I also liked that Avery wasn't afraid to go into a dangerous situation knowing that she might not come out of it alive. Yet, what I liked most of all about the heroine is that she took a chance on the hero. He's a good guy that would do anything to protect her, even though it's palpable that she doesn't need his protection by the mad skills that she has. While the hero, he's confident, strong and I liked how determined he was to win the heroine over because she can't continue to go at things alone, especially not with how dangerous things get for her. I also liked how protective Vincent was of Avery, despite the fact that she doesn't need protection, which is proven by something he witnesses when they face danger and has him wondering just what she's hiding. Yet, what I liked most of all about the hero is that he was willing to do whatever it takes to for Avery, even if it means going head-to-head with his boss.

Overall, Ms. Rafferty has delivered a wonderful read in this book where the dialogue entertained me from

start to finish, as Avery provides quite the challenge for the hero; the chemistry between the hero and heroine was strong and had me liking these two together; and the ending had me worried for the main characters, but had me liking how things work out for Vincent and Audrey, especially after what the hero does and what it could mean for his job. However, it was the epilogue that I loved because it sets up the next story, which I'm looking forward to reading. I would recommend Caught by You by Kris Rafferty, if you romantic suspense, the opposites attract trope, or books by authors AJ Nuest, Laura Griffin, Katie Reus and Katie Ruggle.

Caught by You by Kris Rafferty is part of her Secret Agents series. It is full of action, adventure with twists and turns. A story that keeps your attention.

Books and Spoons says

This story was a triple treat for me starting with the author's voice and style to tell a story. It was flowing, smooth, and engaging, it pulled me into the story and held my interest throughout. The storytelling was intense and sharp mixed with a little drizzle of delightfully dry humor, and sort of delicate, graceful, lightness like life itself is.

The suspense and the whole high-speed chase, the case the FBI is working on is a twisted twine of lies, doubts, and mistrust. Nothing is as it seems to be, the truth is an evasive abstract character in the tale, the one that is impossible to catch. The action is at times brutal, at times breathtaking, and always fierce.

Avery Coppola and Special Agent Vincent Modena had a chemistry that was off the charts. They clicked, they got each other, they saw the true self in each other despite all the lies and half-truths, the misguided loyalty and fears. The bond between them was tight from the start, the attraction was burning hot as well, yet the mental tie was as big of a force as the physical one was.

Avery had so much to lose, the things she had had to face, she had had to do, to learn just to protect herself and her sister were heartbreaking. Yet she owned it like a true queen, like a survivor who knows she did what she had to even though not all of it was completely above the law. She is fierce, smart, capable, a true heroine, and I admired her.

From the first moment, Vincent had seen Avery's picture he had felt a kindred spirit towards her. The first face to face meeting confirmed that she was everything he thought she would be. I loved Vincent's ability to put himself completely into the situation, and his willingness to protect Avery, even if she didn't need it, no matter what.

Fantastic, intense, sharp romantic suspense from a new author to me, and I am enamored with the characters, with the perplexing case, and with the smooth yet fierce storytelling.

I won this book through a Goodreads giveaway. This is my honest review. Vincent and Avery are a powerful couple, even though circumstances make things difficult. Non stop action. If you enjoy FBI thrillers, this

book is for you.

I was asked by the author for an honest review.

I thought that the characters were really interesting. This book had an unusual mix of not-quite-military, not-quite-law-enforcement, not-quite-organized-crime elements incorporated into the plot. I would recommend it to readers who like romantic suspense books with more complex plots and fewer love scenes.

Caught By You by Kris Rafferty
Secret Agents #1

This introduction of a new series had many slowly exposed secrets that the heroine keeps close to her chest...or should I say on her fingers? Avery Toner Coppola is the ex-wife of a mobster who is in hiding with her younger sister. She knows that there is a hit out on her and she needs to run again. When Agent Vincent Modena is sent in to talk her into taking FBI protection in exchange for files she stole from her husband...well...all she can think about is her younger sister and keeping her safe.

This is an action-packed story with a heroine unable to trust anyone but herself and a hero with his own trust issues. It is a story of ruthlessness and revenge. There is romance of the slow burn variety but with plenty of chemistry between Vincent and Avery. The FBI team seems a bit unbelievable with Jack being the lead of the team after having his cover so recently blown – he seems to want justice at any cost – where was his handler? Cynthia, the profiler, really didn't seem to belong on the team but perhaps she and Agent Gilroy (and even Jack) are merely mentioned rather superficially so they will be able to have stories of their own in the future.

I really admired Avery's commitment to her sister, her physical and mental strength and her willingness to do whatever it took to achieve the goals she set for herself. I liked the relationship between Vincent and Avery though Avery kept pulling fast ones and Vincent should have figured her out a bit sooner, perhaps? I liked the rings (read the book) and the legend of The Stinger and...enjoyed the story. I look forward to reading the second book in the series when it comes out.

Thank you to NetGalley and Kensington Books – Lyrical Press – Liaison for the ARC – This is my honest review.

Loved this book. One thing I've noticed with this author she always has strong women as her central characters and that's one reason I enjoy her books so much. Always enjoy a mystery or thriller and that's what this book is. Avery and Vincent are perfect together and they both bring out the best in each other. Would highly recommend this book if you like a romantic thriller.

LOVED this book!!! The characters in this novel are fantastic - from the damaged waitress Avery who has endured unspeakable horrors and survived, to the reluctant hero Vincent, who is nursing wounds of his own. The author made me feel connected to the characters, especially Avery, and invested in their story.

This is a must read book that fans of the genre will love - it's fast paced and full of tension. The author is on

my must read authors' list and should probably be on yours as well.

Nikki Brooks says

Avery Coppola is the daughter of a crime boss and the ex wife of his successor. She went on the run from him with her baby sister. Dante says she stole information from him and the FBI have heard these rumours. She may just give them the "in" they need.

Vincent has been under the radar for over a year trying to bring down Dante Coppola. But he has now been sent to schmooze, seduce or otherwise get to know Avery and grab the information she has. But he didn't plan on being drawn to the ex-mob wife and her cute as a button sister. But there is more to Avery than being a mob wife. She made her ex-husbands "associates" train her and she had wreaked her own kind of justice on those she held responsible for her parents deaths. But she may have been misinformed and there may just be some stragglers, who are just as keen to take her out!

Great rollercoaster ride! Avery is a complicated and conflicted character - good girl at heart but with the skills of an assassin! Her sister is cuteness personified but oh so grown up when it comes to following orders to keep them safe. Vincent is a great alpha male protector but he recognises skills when he sees them! Can't wait for the next!
