Guardians Of Magic: The Revelations of Oriceran Martha R. Carr , Michael Anderle
Leira is done making nice fighting magical demons with everyone else's rules.

Too many dead bodies and not enough answers. The dark Wizarding families have put a target on her back and made it their mission to put a stop to her.

The shifters are coming out of the shadows and they have a big bad alpha, Lucius at the front of the pack. Can Leira get them to play nice or is that just one more group she will have to fight?

Even the government thinks they should control the shots. It's gotten hard to tell who the good guys are and who's out for her blood. Time for Leira 2.0 and a new set of rules. Ready or not, the new world order has started, and magic has returned. History will never be the same.

What a finally!

Excellent end to the arc. I love the direction the next arc is going. I was hoping to read a bit more about Jackson in this book and about a lot of the secondary characters so I am glad that you plan on continuing with Leira 2.0. Can't wait to read more.

Good series

I really liked the characters and storylines in this series. There is lots of action and humor in these books and I really enjoy the way some of the storylines ended and some were left open for the next books. I am very much looking forward to Leira 2.0.

Linda Inman says

This series is greate

Leira is kick ass. The heroine is a strong dominant female. At the beginning of the series she has a somewhat normal life as a homicide cop. Then the magic begins to unfold. Each book builds the story this is the last in this first series. I highly recommend it!

kindle unlimited, but I have bought all the Leira ones, and have read all the Midwestern Witches ones as well, just couldn't get in to any of the others in that universe {there are many, all co-writer by Carr as far as I know} and a new series due out any time now with dragons so looking forward to reading that one.

Elaina Myers says

Wow a lot of changes!

Some great things happened and some horrible things happened in this book. It's stories like these that remind me it's probably for the best we don't actually have magic, but then I remember there are people who want power so much they attack others and mess things up just 'fine' without any magic involved at all.

I can see Leira is really making some major changes and ready to make even more as she figures out how to deal with all the craziness that just seems to be snowballing and getting closer and closer to the tipping point. Hopefully, things continue to get better for Leira and Correk and I especially hope stuff works out for Ossonia and Perrom in a future book!

Rewriting Justice

Meet Leira 2.0, an evolved woman with determination, power, and undying love & loyalty for her family. The magical world is bursting free, regardless of the restraints and brakes futilely being applied. So... what next???

tiffiny moore says

Another great book!!!

Yet again Martha Carr has beautifully written another awesome book! You get completely sucked in from start to finish. I couldn't put it down at all!! On to the next series--!!!!!!

John Harris says

The most entertaining series of the Oriceran universe

With regards to the relationship between Leira and Correkk
In the words of the irascible Estelle,
"Dang bout time"

George Lawson says

Always good to see Leira again

Another good installment. Big changes and magic abounds in the latest book. Characters are maturing and Leira's power continues to grow. Waiting for more.

Lois Alston says

Great freaking book

Glad you decided to continue this series, I love it and would be very disappointed. Love that Keira and Correkk finally recognized the elephant in the room. So much is happening with the dark. I totally did not see that happening to Perrom, not any of it. Makes the future interesting.

Lisa says

Omg
