I really enjoyed this book! It has such amazing character development, told a story that kept my attention and was like nothing else I've ever read. I am not typically a fantasy or YA reader but this surpassed my expectations and was so enjoyable and well-written. Cannot recommend highly enough! I hope there's a sequel!

Loved this book! It was a unique story and very well written. The language was so visual, I felt like I was right there in Bolivia, enjoying the sights, tasting the food and getting wrapped up in the adventure. I can't wait to read more from Isabel Ibañez!

The kind of story with the kind of characters that keeps you from putting down the book. An absolutely beautifully developed world you wish you could climb into and be a part of.

Sam Robinson says

Such a unique story with lovable and interesting characters. I love how strong the lead character is! I read A LOT of YA books and some seem to just tell the same story over and over again I get so bored. This was NOT the case here! Woven in Moonlight creates a vivid and interesting world different from what I've read before. Looking for a sequel!!!! Also want this author to write more books in general!! Love her!!

Woven in Moonlight is a wonderfully magical story, filled with characters that grab your attention and leave you wanting more. I love the world that Isabel has created through the setting and plot. I was drawn in by the strong female characters. Add in a masked stranger, unexpected friendships, and intriguing twists this book was hard to put down and, even once finished, I was wishing for more! It takes a really special book to make it in my "I would reread this" list, but this is definitely one I could sink into again... and again!!
