Aasem Bakhshi says

An extremely readable introduction to Islamic law. The only downside is Nyazee's lack of using examples and case studies. But still, a very good reference to keep.

Abubakar Mehdi says

This is a very helpful book on Islamic Jurisprudence from an academic point of view.(though it can be a good read for people who want to learn about Islamic law)
Its a good refrence book too, but suffers from paucity of case laws and references.
