Linda Lael Miller

## One Last Look Linda Lael Miller

Linda Lael Miller ignites the combustible passion between attorney Clare Westbrook and homicide detective Tony Sonterra in this page-turning conclusion to her *New York Times* bestselling trilogy.

*A senseless murder.*

*A sizzling adventure.*

Carrying her lover Tony Sonterra's child, Clare Westbrook has finally buried her commitment phobia and said "yes" to Tony's marriage proposal. So why is fear running through her veins and haunting her dreams? Sonterra is fired up to leave Phoenix for small-town Arizona, to target a lethal desert crime ring. Clare's willing to stand by her man, but he won't be the only one flirting with danger on the job: as a special investigator for the D.A.'s office, Clare is plunged into a race to find a missing child whose mother was murdered. And on a case this hot, the promise of Clare's bright future could vanish in the blink of an eye....

## From Reader Review One Last Look for online ebook

### Stacey Houllis says

This was the best of the three in the Trilogy the Look. There was plenty of Spence and drama in the book. Tony gets offered a job at cave creek as chief of police and he asks Clare to move with to Cave Creek for six months and see how things go. Clare is pregnant with Tony's baby. Emma her niece is away on a school excursion overseas. Clare agrees to go with him. There are offered a house to live in that was the chief's before Tony who disappeared and Tony has to investigate what happened. Mrs K, Shanda, Loretta make a few appearances in the book as well. The last few chapters make you want to reading to find out what happens. As in the other two books there are murders that occur and Clare feels the need to help solve them. She and Tony do get married that is the only spoiler i am giving away.

---

### Wendy says

Just finished this one last night and I have to say that there were some definate twists and turns in there. I found that it could have ended in a couple of places, but it just kept going, and that kind of got me, but the story was worth it. Finally Tony and Clare are happy and together. Whoo Hooo! I give this one 5 out of 5 stars, even with the three endings.

---

### Jessica says

3 1/2 on this one. It was good, but on this 3rd book it was a bit much. I had to finish it but it was tough!! Who possibly could go through this much drama in her life in such a short period of time? Still loved Clare & Tony though!!!

---

### Gisela says

3.5 stars

Last book in the Look trilogy. Unbelievable situations but entertaining. Loved all the protagonists, except for the bad guys, of course. Very satisfying happy ending.

---

### Lisa says

This is the third book in the Look trilogy. Clare finally gets over her commitment issues and marries Sonterra. She's also pregnant with their child. You'd think she could stay out of trouble now. lol Sonterra takes over as chief of police in a small town in Arizona and Clare goes with him. In no time at all she finds herself a job at a special investigator and she finds herself knee deep in a missing persons case that starts looking like murder. I wasn't sure how this book would play out with Clare being pregnant. By the end of the book she's at about the halfway point in her pregnancy too. There is also a surprise at the end regarding that. I wasn't sure how i liked this series all the way thru but something made me stick with it. There was more

---

good going on with it than bad i guess. Clare is quite pigheaded still and Sonterra finally i think gets her to let go of her independence a bit by the end. Good read.

---

### **rjp316 says**

Very interesting trilogy. I had not read anything by Linda Lael Miller in years (maybe a decade or more) but picked up this book at the library since I recognized the author. Was not what I was expecting at all but liked it – last time I read Miller it was all about the romance. Found it hard to read at first but then enjoyable that Miller wrote the books in the first person but past tense. The story lines was a bit farfetched in that I am sure all these events could never happen to one person in their whole lifetime, but I enjoyed the relationship between Clare and her boyfriend, Tony. I like that they both were very strong and independent but could still find middle ground, especially towards the end when it was not just in the bedroom. I did however find that the “mystery” part of the book was pretty predictable in some of the books, especially #2. But enjoyed the whole trilogy – thankfully I read them after they were all written so I did not have to wait to read them all. Will definitely be picking up more of Miller’s more recent book especially as they fall into the romantic suspense themes.

---

### **Lisa Currier says**

I found this book very disappointing. I usually like this author, but I found the characters pretty unlikable. Too many side characters and stories going on. I felt it was very muddled and boring, kept wondering why I was trying to finish it.

---

### **karen says**

Loved this series. Was the best series yet of Linda Lael Miller series. I loved the Mcketterick series but this one was better. I could not put down the books.  
I loved Clares' feistiness and Santerra's loyalty. I wish there was more on how Loretta and Kip's relationship resolved or how Eddie's future turned out.  
I would like to see more of this series

---

### **Plum-crazy says**

An entertaining romantic suspense that will appeal to fans of Linda Howard & the like. This would appear to be the third in a series featuring Clare Westbrook & Tony Sonterra although if you haven't read the previous books - like me! - it doesn't matter. Though for me I do like the banter & build up of the will-they-won't-they or perhaps more correctly when-will-they scenarios which are missing in this book as Clare & Sonterra are already an established couple. I'll be more than happy to read the two previous books should I come across them.

---

### **Barbara says**

Quite different from her usual books. I enjoyed it.

---

### **Jenn says**

I loved this book. I am so sad that the trilogy is over. There was so much happening and bonding, growing in this final book that you want more. The characters grow on you and you can't help liking them so much. I was shocked about Loretta and Kip. Did not see that coming. Heartbroken for Eddie but so glad that things were getting better for him. Clare and Tony, so much more trust in each other and communication improved so much. They make a great team and couple. Clare's past was her worst enemy and she didn't even know it. The kicker at the end was unexpected but made sense regarding her "apparitions". I am going to miss these characters a great deal.

---

### **TinaMarie says**

Tony is a cop, who goes undercover has sheriff of a town to sort out the coyote problem/murders, Clare is his pregnant, fiancé, pro bono attorney with a knack for finding herself in trouble, not to mention the focus of repeated murder attempts. While it was awful convenient that they had substantial inheritances to make expenses a non issue the rest was very engaging.

---

### **CJ - It's only a Paper Moon says**

A nearly-satisfying conclusion to this trilogy. I loved Sonterra & Clare's relationship progressing and maturing and I loved Emma & Loretta in this one as well.

- Favorite Sonterra & Clare scene had to be at Father Morales'

I did feel that the last twenty pages were too rushed and a lot more could have been done with the whole relationship between the killer, Clare & the Coyotes.

It was a good end and I'm sad to leave these characters.

---

### **Rachel says**

I picked this book up in the Aruba airport when I was desperate for something to read. I'd never heard of the author, but the book was surprisingly good! Nice romance / murder mystery. It's the 3rd in a trilogy, which inspired me to go and buy the first 2.

---

## **Cindy Grossi says**

Good summer fare pool reading, but the main character drives me crazy. She is unbearably pigheaded and in some way, miraculously, the stubbornness works out.

---

## **Kris - My Novelesque Life says**

3.5 STARS

"Clare Westbrook is a survivor who built her law practice from sheer determination -- and an unexpected inheritance. Now Clare, carrying her lover Tony Sonterra's child, has taken the biggest risk of all: saying "yes" to his marriage proposal and finally burying her lifelong commitment phobia. So why is fear running through her veins and haunting her dreams? Sonterra is fired up to leave Phoenix for small-town Arizona, to replace the town's missing police chief and target a lethal desert crime ring. Clare's willing to stand by her man, but her fiancé won't be the only one flirting with danger on the job: as a special investigator for the D.A.'s office, Clare is plunged into a race to find a missing child whose mother was murdered -- a hot case that puts Clare's safety, and that of her unborn child, on the edge. For in a place where secrets have nowhere to hide, the promise of Clare's bright future could vanish in the blink of an eye..." (From Amazon)

I read this series almost back to back and love it. I enjoyed the suspense of each story and the romance between Clare and Tony. In this book we get to see how it all comes together for the couple and it does not disappoint.

---

## **Rhonda Soukup says**

The last book in the 3-part series about lawyer Clare and her cop boyfriend Sonterra.

---

## **Trish says**

I like the story line of two strong people trying to find middle ground for their relationship. I also like that it's not all about them; that there is always something going on in their lives that is sometimes more important their relationship. Loved this book.

---

## **Mel Schanz says**

I'm sad that the series is ending with just three books. I want to know how Clare and Tony get along as new parents and maybe if Emma ever becomes a cop. Who knows, maybe Clare's bff Loretta gets together with newly divorced Eddie. I'll miss this series for sure. It was a fun quick trilogy to escape in.

---

## **Teresa Snyder says**

I REALLY hate for the series to end. Love, love, love, Tony and Clare, and all of their friends. Great series - okay, I had a little trouble with book one, but it just kept getting better and better. Mystery, suspense, and romance. And the epilogue? Perfect!

---
