Kaye Dewar says

Excellent visual support of work projects. Has some really whimsical comments i enjoyed. I will try his techniques for papier mach!

Ita says

This is a fun, useful book for craftsy folks. I think the techniques can be adapted for any kind of indoor papier mache creation.

The nice thing is you don't need to read all of it, just the writing underneath the pictures. It's lavishly illustrated with excellent color pictures of each step in the process. If you do read the "writing", it is humorous. He's a funny guy.

Definitely recommended for craftsy folks who want unusual fun decor for their homes.

Kaila says

I wish more craft books were like this--clear, step by step pictures as well as lots of great ideas. Plus, the very first step is to remove the cats from the craft room. Truly a book for crafters by crafters.

Gibbs Smith says

This video of what the author Dan can make is amazing! <https://www.youtube.com/watch?v=D90r9....> The book shows you how to create one of his monsters!
