It's best to let Watterson speak for himself. Some choice selections from this book:

I'm a big Calvin and Hobbes and this collection is one of my favourites. Brilliant and a must read!

My Rating: 5 stars

Last few days I've spent on getting to know Calvin and Hobbes, reading all I could put my hands or lay my eyes on :)

This is definitely my favourite issue, specifically the snow goons part and the Duplicator fun :) I've read this over a Thursday morning coffee and I just felt sorry afterwards that I rushed to read it all asap.

My personal highlight was the: "Hobbes, do you think our morality is defined by our actions, or by what's in our hearts?"

I think our actions SHOW what's in our hearts."

Calvin stops, thinks. "I RESENT THAT!" :D :D

I love, love>, LOVE every Calvin and Hobbes book, and especially this one, with all the creative snowman stuff. Who needs it to be Halloween to get creative with scary yard art? Not Calvin!
Great title, by the way. Not just killer<?i> snowmen. Oh, excuse me - snow GOONS. Not just deranged killer snow goons. Oh, no, these are deranged MUTANT killer MONSTER snow goons. Let's get that straight, 'kay?

Great collection of strips that id never read before. Novels and bios are great, but a good collection of comic strips like this is an easier read, whether it's a single story strip or stretches out over a few. The humor for this strip is always funny, I wish it still ran in newspapers.

Ville-markus Nevalainen says

If there's ever a moment when you want to laugh and smile, just ask the help of Calvin and his best friend Hobbes. You can never go wrong.

Kat says

*Beware! Beware! Beware, beware, beware!
Deranged Mutant Killer Monster Snow Goons
They've been planning attack for many moons!
Beware! Beware! Beware, beware, beware!
Calvin and Hobbes to the rescue
To hide and panic and defeat them, too!
Beware! Beware! Beware, beware, beware!
How do they defeat the monsters of snow?
The answer is unknown--oh no!
Beware! Beware! Beware, beware, beware!
The solution is just under their nose
Spray them with the hose!*

I am an old woman, so I have read literally thousands of comics. 'Calvin and Hobbes' are the best comics I have ever read. If I wasn't planning on cremation, I would ask to be buried with a 'Calvin and Hobbes' book. (Second choice would be 'Doonesbury'.)

Calvin is an academic underachiever, rebel, performance artist, disgruntled philosopher, and all-around bringer of chaos--although his playmate/rival Susie refers to him as "the incurable weirdness poster child." Whether discovering a new dinosaur species (the "Calvinosaurus") or evading the dreaded monster under the bed, Calvin is hilarious.

"**Attack of the Deranged Mutant Killer Monster Snow Goons**" refers to one of these story lines in which Calvin creates a mutant snow man which in turn creates an army of similar creatures. Other story lines involve Calvin getting chicken pox; his creation of his own TV show; and his club known as GROSS (a warped acronym for "Get Rid Of Slimy girls"). Last but not least, Calvin builds a human duplicating machine out of a cardboard box, and he makes a special copy of himself that represents everything good in him. His plan is to make his flawless duplicate do all of his homework and chores, while he himself gets all the credit. Everything goes fine for a while, until his duplicate develops a crush on Suzie, making him look bad. Hilarity ensues.

The Calvin and Hobbes stories are great because they are funny celebrations of the power of a child's imagination. Calvin assumes such alternate identities as sci-fi hero Spaceman Spiff, caped superhero Stupendous Man, and private eye Tracer Bullet. Often the humor comes from the clash of Calvin's fantasies with the reality around him. The stuffed Hobbes, through the power of Calvin's imagination, becomes both a comrade and a great foil for the boy; their wacky relationship is one of the most memorable in the comic strip genre.

I guarantee that anyone that loves comics will fall in love with this one and should definitely buy this book to start their collection of classic comics. Best comic ever in my opinion.

Only Calvin could see advantages in being sick and having to stay away from other kids. And away from school. Calvin's bitter enemy surfaces in this volume: the deadly bicycle. It's amazing to which lengths he goes to to explain his bad behavior near Christmas. He's such a victim of circumstance. The PI story is hilarious and riddled with misogynistic references like any good pulp novel should be. He is adorable when he breaks the fourth wall. I'm so glad I picked up this collection.

These comics never get old. But I do, I have become Calvin's dad :(

Exina says

This book is my favorite in the series. The title is very promising, and you get a lot of Calvin's snowmen indeed.

Hobbes is amazing: he is skeptical, sarcastic, and infinitely wise. Furthermore, he takes advantage of his feral self against Calvin a lot...

Calvin's duplicator is a fantastic invention. Completing it with an *Ethicator* makes it more effective, creating the good side of Calvin. It is a truly laugh-out-loud moment when Calvin and Hobbes get rid of the good Calvin, who becomes really annoying after a while.

Becky says

I don't know if a family, much less a childhood, without Calvin and Hobbes would be complete. Frankly, once it stopped being published, my newspaper readership dropped off significantly. Everyone needs to smile, needs a little imagination in their life, and needs a little bit of Calvin and Hobbes.

And if anyone is up for a game of Calvinball, just give me a call.

Raccolta di strisce e di tavole domenicali, prima di leggerlo pensavo fossero tutte correlate all'inverno (un po' come quelle a tema di Charlie Brown), invece sono un misto di tutte le stagioni e di tutti i temi, mostri di neve, biciclette killer, viaggi nella preistoria e nel futuro etc...

Calvin è un bambino dotato di una fantasia sfrenata mentre Hobbes la sua tigre di peluche; sono vignette comiche, riflessive, quasi filosofiche, da leggere insomma.
